INAUGURAL ADDRESS BY MAYOR CHARLES A. ROSS

January 4, 1943

This January morning is an eventful time in the civic life of our beloved City of Quincy. Upon every individual and organization, fraternal, civic and political, there rests a serious and unrelenting responsibility. A responsibility to ourselves, to our neighbor, to our City and to our Nation—a responsibility of unceasing effort, sacrifice and toil to the successful conclusion of the great struggle in which our Nation is now engaged. No purpose can be greater than devotion to the service of our Country. The sacrifices we will be called upon to make will be made willingly and wholeheartedly. The historical tradition of our City inspires each of us to greater and nobler efforts in these days of our national crisis.

With a deep feeling of gratitude and appreciation I recognize the great trust and responsibility placed upon me by the citizens of Quincy. That responsibility I accept in its fullness and the trust placed in me will be discharged with care, seriousness and honor.

The conduct of the affairs of a city government are serious when times are normal but are of the greatest importance during times of national disturbance. Our contribution to the war effort will be greater if our municipal services are skillfully and adequately maintained.

The tremendous financial requirements to maintain this world-wide struggle will increase the tax burden of every person. This burden must be lightened as far as possible by a wise and economical management of municipal affairs. During the time of this emergency there will be no borrowing of money except for war or defense requirements. No major expenditures are anticipated only such as this emergency may create.

While maintaining our normal and necessary municipal services every saving will be intelligently affected and every move towards that end will receive deliberate and serious consideration. We must anticipate that the cost of materials purchased by every City department will increase as the general commodity prices increase throughout the country. We must take cognizance of the fact that many land takings for the widening of South Street, Howard Street, and Foster Street have been completed with no payment made for the takings. A similar situation exists with relation to certain lands involved in the taking of the area for the municipal parking space. It is to be expected that during the next three years some payment will have to be made by decision of the Court or otherwise for these takings. Such additional expenditures we will prepare to meet and attempt to meet out of current tax levies. The expenses of our very excellent Municipal

Defense Council are unpredictable from month to month and will of necessity have to be made as the emergency requirements vary.

The question of tax abatements based particularly upon previous Court decisions will receive serious consideration and will be adjusted so that the municipal tax burden to each individual will not be increased. We must anticipate increased expenditures to care for the greater financial burden created by the seventy hour week in the Fire Department; and with the cessation of hostilities we may have a return of many city employees who are now in the Armed Services and for the replacement of whom money must be provided should they return to their positions. It is our hope that the recommendations of the municipal salary committee now in effect for city employees may be maintained.

Together with these conditions the years ahead will create other serious financial problems. We must all realize that increased taxation by the Federal Government together with necessary and increasing governmental restrictions will drastically effect the financial situation of the City of Quincy. War conditions will undoubtedly require increased expenditures by the City and State for war and defense purposes and will necessarily decrease revenues received by the State from various sources. Increased Federal taxes will reduce State income. The prevailing and growing restrictions on the use of automobiles by the public will seriously lower receipts from the gasoline tax. The result of reduced revenues by the State will of necessity increase the State tax to be assessed on every City and Town in the Commonwealth and will necessarily reduce any income which Quincy might normally receive from the Commonwealth.

There is a possibility that the City's income from the State, from income and corporation taxes, will be less in 1943 than it was in 1942. There is also the further possibility that the distribution from the State Highway Fund will be entirely eliminated this year. The State Tax Commission estimates that the loss from the two tax distributions may be at least 10 percent which would mean a loss of approximately $50,000 this year. If the Highway distribution, which has been received since 1939 and last year amounted to $184,133.41, is eliminated, it would mean that the city will have to bear the whole cost of the State tax, whatever it may be. There is the additional problem of loss of excise taxes from motor vehicles and the necessity of assessing many motor vehicles as personal property with its concurrent tax collection difficulties.

Of paramount importance is the maintenance of public safety and public health. To this end our defense agencies will receive every cooperation. I have held a meeting with the medical men of the City and I am extremely pleased to be able to report to you that provisions for the protection of public health and for medical and hospital attention are splendidly cared for. We are fortunate in Quincy to have an excellent hospital and medical men of outstanding intellectual and professional ability.

We can with pride and security look to our City Council for capable and economical legislation. Our School Committee can and will, I am sure, maintain the high standard of education which has been established in our civic life.

No municipal service is better than the spirit of the department and the leadership of the department head. We look for, and confidently expect, the wholehearted cooperation of every department and every department head to make this next three years an outstanding period in the life of our City. I unhesitatingly assure every organization and every department of my full and sincere attention and cooperation.

With full confidence of united effort and complete cooperation we face the future. No problem is too great, no condition too serious to be overcome by men devoted to public service and to the welfare of their community.

To the Citizens of Quincy, to the members of the City Council, to the School Committee, I pledge my full and sincere cooperation. Inspired in our efforts, with a full realization of our responsibilities and with determination to courageously and intelligently meet every unprecedented problem we can and will, with Divine Guidance, successfully administer the affairs of our beloved City and make our rightful contribution to victory and ultimate peace.

CITY GOVERNMENT—1943

Mayor, HON. CHARLES A. ROSS

REPORT OF THE AUDITOR

April 12, 1943.

To His Honor The Mayor
and The Honorable City Council:

I submit herewith the financial report of the City of Quincy for the year ending December 31, 1942.

In compliance with Section 50, Chapter 41 of the General Laws, there is appended a certificate under oath with reference to the verification of cash balances in the hands of the City Treasurer and various trustees having custody of funds.

Respectfully submitted,

LEO E. MULLIN,
Auditor of Accounts.

I hereby certify that I have verified, by actual count of the cash and verification of the bank balances, the cash of the City Treasurer, the Board of Managers of the Adams Temple and School Fund, the Board of Managers of the Woodward Fund and Property, and the Trustees of the Thomas Crane Public Library.

LEO E. MULLIN,
Auditor of Accounts.

Sworn to before me this 12th day of April, 1943.

ANNA L. GELOTTE,
Notary Public.

IN COUNCIL

February 9, 1942.

Order No. 109

ORDERED:

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy for the financial year beginning January 1, 1942 and ending December 31, 1942, to be expended by and under the direction of the several officers or boards as herein designated.

		$283,313.54

REPORT OF THE QUINCY RETIREMENT BOARD

February 26, 1943

HONORABLE CHARLES A. ROSS, *Mayor*
City of Quincy, Massachusetts

The Quincy Retirement Board submits its eighth annual report, being for the year ending December 31, 1942, with appended tables setting forth the financial and statistical results.

During the year the second periodical investigation of the mortality, service, and compensation experience of the system was made in accordance with the terms of the act which created it. Although the mortality experience among active members, the disability retirement experience, and the salary experience were unfavorable in certain respects, nevertheless the experience with respect to withdrawal, service retirement, and mortality among beneficiaries was favorable so that in total the actual results were not greatly different from those anticipated. In consequence the basic rates are being continued for another year at the same levels that have prevailed since the beginning of the system in 1935.

The turnover in membership continues at a high level but the net increase during the year 1942 was approximately 10%, bringing the total active membership at the end of the year to 476, which is the highest point to date and the total of all members including those retired to 495. The greatest proportional gain was, as might be expected, among firemen and policemen in view of the fact that these departments as a whole were not reflected among the initial membership.

Respectfully submitted,

GEORGE E. BONSALL,
JOHN J. KEEFE,
LEO E. MULLIN,
Quincy Retirement Board

TABLE I

Statement of Cash Receipts and Payments for the Year Ending December 31, 1942

Receipts

Cash on hand January 1, 1942		$2,873.78
Members' Contributions		25,742.33

TABLE VI

Valuation Balance Sheet Showing the Assets and Liabilities of the Funds of the Quincy Retirement System as of June 30, 1942

Assets

Annuity Savings Fund	$124,306
Annuity Reserve Fund	3,903
Pension Reserve Fund	.....
Pension Accumulation Fund	152,640
Total Present Assets	$280,849
Present value of the prospective contributions payable by the City into the Pension Accumulation Fund	280,544
Total Assets	$561,393

Liabilities

Present value of benefits on account of which contributions have been paid by members into the Annuity Savings Fund	$124,306
Present value of benefits payable on account of beneficiaries or their dependents now drawing annuities from the Annuity Reserve Fund	3,892
Present value of benefits payable on account of beneficiaries or their dependents now drawing pensions from the Pension Reserve Fund	.....
Present value of benefits payable on account of beneficiaries or their dependents now drawing pensions from the Pension Accumulation Fund	60,517
Present value of benefits to members with prior service credit to be paid by contributions of the City into the Pension Accumulation Fund	227,813
Present value of benefits to new entrants to be paid by contributions of the City into the Pension Accumulation Fund	144,865
Total Liabilities	$561,393

No account is taken of the future contributions of members into the Annuity Savings Fund because the benefits provided by these contributions are exactly equal to the accumulated amount of the contributions and therefore they do not affect the balance in the fund.

REPORT OF THE BOARD OF ASSESSORS

January 1, 1943

HON. CHARLES A. ROSS, *Mayor*
Quincy, Massachusetts

Dear Sir:

The following is respectfully submitted as the report of the Assessing Department for the year 1942.

REPORT OF DEPARTMENT OF PURCHASE AND SUPPLY

To the HONORABLE CHARLES A. ROSS, *Mayor*
City of Quincy, Massachusetts

Dear Sir:

The annual report of the Department of Purchase and Supply for the year ending December 31, 1942, is herewith respectfully submitted.

Purchases for all departments in our municipal government were under the direct control of the Purchasing Agent. No change was made in the purchasing system throughout the year. The personnel changed several times and due to increased demand for clerks in local war industries and no Civil Service List available the department ended the year with two clerks instead of the customary three. Extra clerical assistance received in former years through the N. Y. A. was discontinued in 1942 due to the abolition of this branch of Federal aid to young men and women. The loss of this clerical help by our department added extra duties on the regular force.

During the early months of 1942 the Purchasing Agent realized that due to war conditions certain shortages of equipment and supplies as well as increased prices would prevail and therefore he advertised for bids and placed contracts at the earliest possible date in order to insure departments of a sufficient amount of operating supplies during 1942. On January 13th in a letter to members of the City Council the Purchasing Agent said, "Price increases are evident in practically all items and with the country at war we must expect levels will rise until the OPA place price ceilings on commodities. Military necessities will take precedent over civilian projects so materials will be increasingly difficult to obtain." As the year progressed we found ourselves more and more envolved in limitation orders and priorities which made it necessary to adjust our municipal program to coincide with the national "all out" war effort.

During the year 9,471 requisitions were received from the various municipal departments and these were divided as follows:

A. D. C.	3
Assessors	37
Auditor	24
Building	20
Cemetery	103
City Clerk	163
Defense	652
Enginueering	72
Executive	37

W. P. A.	174
Voc. Tr. of Defense Workers	293

The Purchasing Department wrote 11,316 purchase orders during the year. The division of these orders may be compared in the table accompanying this report. The table shows that approximately 51% of the orders were placed with Quincy merchants or residents; 44% were placed with concerns in the Boston area where many firms employ Quincy residents; 5% of the orders were placed outside of the Boston area.

Contracts

Fifty-one contracts were awarded during the year. Details of these awards will be found in the accompanying charts.

1942	No. of Orders	Total Amount	Quincy Orders	Am't of Quincy Orders	Boston Orders	Am't of Boston Orders	Outside Area Orders	Am't of Outside Area Orders
January	1,707	$79,512.77	734	$25,254.27	938	$45,010.00	35	$9,248.50

Totals	11,316	$529,115.61	5,733	$222,404.43	5,000	$269,743.02	583	$36,968.16

(Chart A-1)

The gasoline contract for 1942 was awarded jointly to Quincy Oil Company and Cities Service Oil Company at the Posted Tank Wagon Price less .0025. It should be noted that, whereas in 1941 the contract carried a top price for the year of .059 per gallon, no bids were received in 1942 where a top price for the year was given. Due to war conditions and the Federal rationing program the cost of gasoline to the City of Quincy increased from .059 per gallon under the old contract which expired in February to .0875 per gallon under the new contract in that month. Increases were noted in succeeding months until late in June we paid .1215 per gallon. Finally when gasoline rationing became effective in late July the price was fixed by government regulations and for the balance of 1942 the City paid .0965 per gallon. The increase in the price of this one commodity cost the City many thousands of dollars.

When the Purchasing Agent advertised for bids for heavy fuel oil for four Quincy Schools and the Quincy City Hospital no bids were submitted. This condition also existed in 1941 and again this year it was deemed advisable to follow the 1941 proceedure and enter into an agreement with the present suppliers to furnish oil for the 1942-43 heating season. Existing war conditions made it necessary for the Governor of the Commonwealth to issue an Executive Order allowing the purchase of all types of fuel by government agencies without the formality of advertising and receiving bids.

Many materials usually purchased under contract for highway construction were omitted this year as their purchase fell within the scope of government limitation orders.

The City of Quincy received a 50% grant from the Federal Government under F.W.A. for the purchase of fire fighting equipment. Following the receipt of this grant of $22,500.00 the Purchasing Agent prepared specifications and advertised for bids on two 1,000 gallon enclosed cab pumping engine trucks and one service aerial ladder. Bids were received early in April and although priority applications had been filed with the War Production Board it was not until late in July that permission was granted by the Board for the purchase of the two pumping engines. This contract was placed with the American LaFrance Foamite Corp. and delivery will be made about February 15, 1943. The priority on the aerial has been repeatedly denied by the War Production Board in spite of every effort on the part of the administration.

Bids were received in October for the purchase of a 175 foot steel radio mast for the Police Department. This will replace the present wooden mast which was erected in 1934 and may collapse at any time. Several months elapsed after the opening of bids before the War Production Board finally granted the City a priority for the purchase of this mast. On December 23rd a contract was awarded to the Blaw-Knox Company and the tower will be erected during the early part of 1943.

Defense

More than $70,000.00 was spent during 1942 on the Civilian Defense program. The Purchasing Agent took an active part as vice-chairman and coordinator for the City of Quincy, appointed by the Mayor and Executive Committee of the Defense Council. Equip-

ment and supplies of every defense nature were purchased, the air raid signal system completed, auxiliary police and firemen uniformed, general offices established and a program completed. A report in detail of the activities of the Quincy Defense Council is filed separately.

Rationing

The municipal government found itself very much involved in the national rationing program from the outset. On January 2, 1942 the City made its first purchase of office supplies and equipment for the then small rationing board. The office grew from one clerk in January until as of December 31st the Federal Government employed twenty-one clerks in a large Quincy office. More than $3,000 was spent during 1942 for office supplies for the Quincy Rationing Board by the City of Quincy. Salaries and rent were borne by the Federal Government.

City purchases were subject to all rationing rules and regulations and this entailed considerable detail for the Purchasing Agent in filing all forms for City departments and obtaining ration permits and coupons.

The Purchasing Agent wishes to call attention to two communications filed with the Mayor during 1942 pertaining directly to the rationing program and the conservation of City equipment. On July 14, 1942 I called attention to the fact that we should devise means to conserve all City owned automobile equipment and suggested a survey of our 128 units and a plan for the reduction in use of our cars and trucks so that we might obtain the longest possible service from every piece of equipment. This plan involved the pooling of cars, discontinuance of City owned cars for private transportation, use of street cars and trains when possible and a limited curtailment of certain services insofar as the curtailment would not affect the health and safety of our citizens. No action was taken on this communication, and again on November 25th I submitted a copy to the then acting Mayor. This matter should be considered in 1943.

On July 13, 1942 I apprised the Mayor of the possible fuel shortage during the 1942-43 heating season and in my communication suggested that departments dependent on oil for heat should make immediate surveys with the idea of conversion to coal. With the fuel shortage apparent in December the acting Mayor took steps to study the conversion program.

Council Meetings

The Purchasing Agent attended all Council meetings throughout the year and gave any assistance or advice desired by that body.

In Conclusion

As America drives ahead during 1943 to win the war the problems of purchasing will increase from day to day as civilian supplies diminish. The prospects for the coming year point to a program of maintenance and repair of our existing equipment and services. The various problems must be met as they arise. Strategically located, with great war production plants within the con-

fines of our City, the importance of the Department of Purchase and Supply cannot be underestimated as through its resources the necessary supplies for the maintenance of vital municipal services must be purchased.

The Purchasing Agent acknowledges with thanks the cooperation received during the year from all department heads as well as the great group of City employees. May I further extend my thanks to merchants and contractors for the whole-hearted co-operation during 1942.

Respectfully submitted,

JOHN T. LANE,
Purchasing Agent.

REPORT OF DEPARTMENT OF HEALTH

January 1, 1943.

Hon. Charles A. Ross, Mayor of the City of Quincy:

Dear Sir:

The Health Department has experienced an exceedingly busy and extraordinary year during 1942. With the added load of duties that have resulted from the war activities in this City, it has been necessary for nearly all of our personnel to assume extra duties to meet these necessary requirements. So, at the start of this annual report I express my appreciation and thanks to those members. Likewise we have had to ask the cooperation of other City departments in those details that entailed their involvement. This has always been most generously given.

We shifted our annual diphtheria immunization clinics to the Spring with most gratifying results. Previously these clinics had been held in the fall; but with the more recent recommendation of the Massachusetts Department of Health that there be a three weeks period between inoculations it would have carried this work into the cold winter weather. With the many new people either living or working in Quincy our immunization program takes on added importance. Probably a considerable portion of these people come from sections that do not enjoy our enviable record of no diphtheria; hence the possibility, if not probability, of many carriers being among them. Immunization of all our child population at the earliest possible date is therefore very essential.

During the past year we have re-written our regulations to bring them up to date and to aid in our enforcement of sanitary and healthful conditions. We have anticipated the possible need of such wartime emergency requests as trailer camps and daytime nurseries by including regulations to cover the licensing and operating of them.

Following a temporary appointment to Evelyn M. Kelly as one of our nurses, she has been given a permanent appointment to fill the vacancy existing through the resignation of Mary McLennan.

Throughout the individual reports appended hereto, you will find several recommendations, all of which deserve your proper study.

In the following vital statistics I suggest careful reading and analysis to our citizens as they contain many striking facts.

Population

The figures in the following statistics are based on the 1940 Census, plus the natural increase of births over deaths in the ensuing period. We therefore arrive at a population estimate of 77,320 for 1942. Since, at this time, there is no way of determining our increase through the influx of new inhabitants, the rates based on the above figure are probably a bit high.

Deaths

Crude and residential death rates. There were 750 deaths that occurred in Quincy indicating a crude death rate of 9.7 per 1,000 population as compared with a rate of 8.7 in 1941. Subtracting the 83 non-resident deaths and adding 167 resident deaths that died outside of Quincy, we arrive at a figure of 834 residential deaths, or a rate for 1942 of 10.8 per 1,000 population as compared with a rate of 9.8 in 1941. Table 4 gives the rates for the past ten years.

Sex, Nativity and age of decedents. Of the above residential deaths, 446 or 53% were males, and 388 or 47% were females. 532 or 64% were native born and 302 or 36% were foreign born. For age groups see Table 3.

Principal Causes of Death

	Int. List Numbers	Deaths 1942	Rate per 100,000 1942	Percent of total 1942	Percent of total 1941
Heart Disease	90-95	288	372.5	34.6	33.0
Cancer	45-55	111	143.5	13.3	16.5
Intracranial Lesions of vascular origin	83	79	102.2	9.5	9.2
Accidents	169-195	65	84.1	7.8	4.0
Pneumonia, all forms	107-109	47	60.8	5.6	5.6
Acute and Chronic Nephritis	130-132	46	59.5	5.5	5.7
Diseases peculiar to the first year of life	158-161	33	42.7	4.0	3.5
Tuberculosis, all forms	13-22	27	34.9	3.2	3.2
Arterial Diseases	96-99	22	28.4	2.6	2.7
Diabetes	61	15	19.4	1.8	2.4
All other causes		101	130.6	12.1	14.2
		834	1,078.6	100.0	100.0

Of the 65 accidental deaths, 24 occurred as a result of the Cocoanut Grove holocaust in Boston on November 28th.

Communicable Disease Deaths—There were no deaths from typhoid fever, infantile paralysis, diphtheria, measles, scarlet fever or whooping cough during the year 1942. One death resulted from paratyphoid fever, one from malaria, 20 from lobar pneumonia and 27 from tuberculosis.

Infant Mortality. During 1942 there were 48 infant deaths, indicating the infant mortality rate as 28.3 per 1,000 live births. This is the lowest rate yet recorded for Quincy. Of these deaths 39 or 81% were under one month of age. The leading cause of death was prematurity, claiming 23 deaths or 48% of the total infant mortality. Ten years ago our infant mortality rate was 48 and twenty years ago was 73 per 1,000 live births. Table 2 classifies the infant deaths by age and cause; while the rates for the past ten years are included in Table 5.

Maternal Mortality—There were 7 maternal deaths for 1942 making this rate 4.1 per 1,000 live births. Table 5 shows the rates for the past ten years.

Births

There was a total of 1,694 births credited to Quincy in the past year. There were 1,562 births that occurred in the city; subtracting 296 of these that were non-resident, and adding 428 resident births that occurred outside of Quincy we get the total births above mentioned. This indicates a birth rate of 21.9 per 1,000 population, the highest rate since 1925. This figure of 1,694 births is the highest ever recorded in Quincy; and the excess of births over deaths (860) is by far the greatest in our history. It is interesting to note that of the total births 1,167 or 98.4% occurred in hospitals. For birth rates since 1933 see Table 4.

Stillbirths

The total number (corrected for residence) of stillbirths in 1942 was 28, which gives a rate of 16.5 per 1,000 live births. For rates since 1933 see Table 5.

Again, I urge that before licenses are issued by the License Board for any business that requires equipment in accordance with the State Health Laws or the regulations of this department, that these licenses be not issued until the applicant has met the full requirements of the Health Department. This would save much time for our inspectors and eliminate the necessity of court action.

Rabies in animals has been occurring in the past year in communities adjacent or near to us. It is important that owners of dogs have their animals inoculated annually against this disease, for the safety of the family and community as well as the animal.

Indications point to a considerable increase in Scarlet Fever and Measles for 1943.

In closing I wish to thank the Quincy Patriot Ledger for their splendid cooperation in publicity for our various projects. Since successful health control is largely a matter of public education, the newspaper assistance is most valuable.

Respectfully submitted,

RICHARD M. ASH, M.D.,
Health Commissioner.

TABLE 1

(Resident Deaths According To Cause, 1942

(International List of Causes of Death)

ALL CAUSES		834
I Infectious and Parasitic Diseases		40
2. Paratyphoid fever	1	
13. Tuberculosis of the respiratory system	25	
14. Tuberculosis of the meninges and central nervous system	1

REPORT OF DISPENSARY PHYSICIAN

January 1, 1943.

This being war time all deficiency diseases naturally increase but to offset this fact, Quincy being a large defense center, families have profited financially and the family budget has allowed far more to spend. Hence there is better living and housing and more to spend for food and as a consequence better health and less Tuberculosis. Later on, Quincy, like other communities, will show more Tuberculosis. The State is already showing an increase and in the allied countries, especially France, the morbidity and mortality from Tuberculosis is appalling. Since entering the war many new cases are referred back for further study from the Army Induction Center. The majority of these cases show Tuberculosis scars but are in a quiescent state and though not fit for army life many will carry on in civilian pursuits. This is a good procedure because we then find many cases that need further check-up to keep them from breaking down into active Tuberculosis.

During 1942 a new link in Tuberculosis control has been added by establishing a rehabilitation worker. The National Tuberculosis Association approves and advises rehabilitation for every community. Of course this is logical, for otherwise we would turn back arrested cases to the community only to break down again with poor choice in work selection when restored to civilian life. Rehabilitation prevents this.

When a new case enters the sanatorium a trained social worker interviews this patient and while undergoing treatment he is taught new skills to replace previous unsuited occupational skills. Thus a mechanic, a shoe worker, or a factory worker, etc. may be taught white collar skills and less strenuous occupations. So without expense the patient is trained to earn a livelihood without jeopardizing his health. Supplementing this idea we are affiliated with the Rutland Trainee Center. Here, arrested cases are trained along special lines and restored to the community as self supporting citizens. With your approval we are using this center to good advantage.

We receive reports from the center on the trainees and we are well satisfied with their progress. This center at Rutland does good work. It is under private control and receives part of its support from public subscription. The Quincy Tuberculosis and Health Association contributes substantially from its seal fund annually. Before approving this center we sent a committee to investigate and their report was very favorable and then our support was given. So today the cooperating Tuberculosis patient has a much brighter outlook than the Tuberculosis case in earlier times. Now his stay in the sanatorium is shortened by one half by operative procedures. He is retrained and readjusted to new and less hazardous occupational skills through social service training. His return to civilian life is hastened and much more assured to be self supporting by rehabilitation education. So the cooperation of the Social Service and the Rehabilitation Worker with the Dispensary Tuberculosis Nurse in the follow up field, establish for better home conditions, quickly discovering active Tuberculosis cases and hospitalize

the same, have contacts more quickly examined and give special worth while Tuberculosis education for the prevention of Tuberculosis in the home.

In a word, through team work these three departments aid materially in Tuberculosis control. Thus the utter gloom and desolation caused by the white plague in the past is being rapidly replaced by newer and more promising treatment procedures in present day Tuberculosis control. Thus we may hopefully look forward to the control of one of the greatest scourges of history.

Children's Clinic and Camp Norfolk

The educational value of the children's clinics and Camp Norfolk will be considerably influenced by the war. Many counselors and supervisors and instructors have been absorbed in war work. Hence the attendance is curtailed. The same influence is felt in the school clinics. All three sources spread valuable education for Tuberculosis control to the families and will be noticeably interrupted for the duration. However, we hope to carry on during the emergency and intensify our efforts to accomplish our work.

During 1942 the Quincy Tuberculosis and Health Association has with other county T. B. organizations sponsored the establishment of a library at the Norfolk County Sanatorium. This project will add materially to the pleasure and comfort of the patient and enables them to spend their rest periods more profitably intellectually, and better their morale. Mr. Hill, our President, also the City Librarian, will be a great help in the selection of good books for the library.

The clinic statistics will be returned to you by Miss Russell.

I wish to thank you for your cordial spirit of cooperation during the year and Miss Russell for her splendid cooperation at the clinics. Also Mrs. Kelly who assisted at the Saturday morning clinics and Miss Coleman who assisted at various clinics during the year.

Respectfully submitted,

C. J. LYNCH, M.D.
Dispensary Physician.

REPORT OF THE TUBERCULOSIS DISPENSARY NURSE

January 1, 1943.

I herewith submit to you my annual report for the year ending December 31, 1942.

Total number of all kinds of Tuberculosis in the city.....451
- Pulmonary cases 416
  - Active pulmonary cases 125
    - Arrested pulmonary cases 267
    - Pneumothorax cases 24
- Extra pulmonary cases 35
- Childhood type cases (not reportable to State)..... 2

New cases of Tuberculosis reported during the year..... 65
- Pulmonary cases 58
- Extra pulmonary cases 4
- Childhood type 2
- Pleurisy with Effusion and hospitalized..... 1

Disposition of New Pulmonary Tuberculosis Cases:
- Admitted to Norfolk County Hospital 39
- Admitted to Rutland State Sanatorium 3
- At home 8
- Admitted to North Reading State Sanatorium..... 2
- Died at home 4
- Waiting to be admitted 2

Disposition of New Childhood Type Cases:
- At home under care of own physician 1
- At home under dispensary clinic 1

Disposition of New Extra Pulmonary Cases:
- Report by death certificate 2
- Admitted to Lakeville State Sanatorium 2

"Norfolk County Hospital"

Registration of patients at the end of the year..... 61
Cases admitted during the year 55
Minimal Pulmonary cases admitted during the year..... 55
Cases readmitted during the year..... 6
Cases discharged during the year..... 44
Cases admitted for observation period..... 3

Condition of patients on discharge:
- Arrested Pulmonary T. B..... 19
- Pneumothorax case—on indefinite leave of absence to return to the hospital weekly for "refills" without charge 1
- Dead 12
- Observation cases discharged "Non-T. B."..... 2
- Left before diagnosis was made..... 1
- Discharged for breach of discipline..... 3
  - Condition Unimproved 2
  - Quiescent 1
- Left against advise—condition unimproved..... 3
- Left against advise—condition improved..... 1
  (This case was readmitted later)

Pulmonary case on admittance, discharged Non T.B..... 1
Pleurisy with effusion case discharged—Non-T.B.—
Angina 1

"North Reading State Sanatorium"

Registration of patients at the end of the year..... 1
Cases admitted during the year 3
Cases discharged during the year..... 5

Condition of patients on discharge:
Arrested Pulmonary Tuberculosis..... 1
Childhood Type Tuberculosis "Arrested"..... 2
Diagnosis of Pulmonary revoked to "Non-T.B."—condition improved 2
"Lipoid Pneumonia"

"Lakeville State Sanatorium

Registration of patients at the end of the year..... 5
Cases admitted during the year 3
Cases discharged during the year 2

Condition of patients on discharge:
T.B. Knee—"Arrested" 1
T.B. Spine—"Quiescent" 1
"Mass. State Hospital for Crippled Children"—Canton

T.B. Knee 1

"Deaths"

Total number of deaths during the year..... 21
Pulmonary Tuberculosis 19
T.B. Meningitis 2

"Adult Clinic"

Attendance 224
New cases added to the clinic register..... 68
Number of contacts examined 40
Number of sputum examinations made.....364
Patients X-rayed at Norfolk County Hospital.....172
Number of clinics held during the year..... 51

"Undernourished and Contact Children's Clinic"

Attendance 437
New cases added to register 75
Number of contact examinations made..... 60
Mantoux tests done 42
Negative 30
Positive 12

Children admitted to the Norfolk Preventorium for eight weeks during the summer 25
Referred for dentistry 3
Referred for T & A Operation 8
X-rayed at Norfolk County Hospital 24
Number of clinics held during the year..... 50

Total number of visits to and in behalf of Tuberculosis patients 1148.

X-ray patients were transported to Norfolk County Hospital every Tuesday A. M.

Number of cases moved away and addresses forwarded to State.... 5

Am assisting at three well baby conferences a week.

Have taken office hours and made calls on communicable disease work when necessary; also assisted at T.A.T. clinics.

Respectfully submitted,

GERTRUDE T. RUSSELL, R.N.
Dispensary Nurse.

REPORT OF CHILD WELFARE PHYSICIAN

January 1, 1943.

The birth rate in Quincy still continues to rise—21.9 for 1942—as compared to 18.3 for 1941. Against the inevitable toll of lives in this war there is a crumb of comfort that the United States population took a jump upwards. The estimated increase in population up to January first of this year is about 50 per cent more than the annual rise between 1930 and 1940. With several million men in the armed forces, and many of them stationed in far parts of the world, there will probably be no increase in 1943.

The infant mortality was 28.3 (residents of Quincy only) as compared to 33.6 for 1941. Thirty-nine of the 48 infant deaths occurred under the age of one month—approximately 80%. Any further decrease in infant mortality can be most easily obtained by concentrating on pre-natal and obstetrical care. It is well to remember that a goodly number of deaths in the first month are due to unavoidable congenital defects. Fortunately a very high percentage of deliveries are in the hospital (98.4%).

There were no deaths from Whooping Cough, Scarlet Fever, Diphtheria or Poliomyelitis. There was one death from Paratyphoid. There were only two deaths among the 1,482 children registered at the Well Baby Conferences. Both these deaths were from Pneumonia.

There has been a marked drop in attendance at the Well Baby Conferences. (From 4,181 visits to 2,966.) This is largely due to the following facts:

First, an increased income enables many more mothers to bring their babies to their own physician.

Second, many mothers are employed and have to depend on grandmothers to bring the baby to the conference (and grandmother is not quite so energetic).

The Atlantic Conference still remains the largest one. With fewer attending naturally there were fewer examinations and seventy-one fewer babies registered in all the Conferences.

Very truly yours,

EDMUND B. FITZGERALD, M.D.,
Child Welfare Physician.

REPORT OF CHILD WELFARE NURSES

January 1, 1943.

Report of the Child Welfare Nurses for the year ending December 31, 1942.

Total clinic registration during year		1,482
Total clinic registration active December 31st		929
Total new registration during year		588
Total clinic attendance		2,966
Number of clinics held		295
Well baby clinics	273	
Pre-school clinics	10	
Orthopedic clinics	12	
Number of deaths		2
Lobar Pneumonia	1	
Bronchopneumonia	1	

Clinics Held

Referred to private or clinic dentist	36
Referred to habit clinic	32

Each Monday and Wednesday morning was spent at St. Joseph's School. Since November 1st Tuesday and Friday P. M. spent at St. Mary's School.

Each Saturday morning assisted at the Undernourished Children's Clinic.

Respectfully submitted,

EVELYN R. KELLY, R.N.,
Child Welfare Nurse.

REPORT OF ORTHOPEDIC CLINIC

January 1, 1943.

Below is a report of the Orthopedic Clinic from June, 1942, to December, 1942:

Attendance	48
New cases	23

The following is a classification of conditions found in these patients:

Pronated feet	22
Flat feet and knock knees	10
Bow legs	6
Curvative spine	2
Flat feet	7
Hammer toes	1

Respectfully submitted,

F. RAMON BURKE, M.D.,
Orthopedic Physician.

Note: The report for the first part of the year is not included because of the absence in the military service of the physician conducting the clinic for that period.

REPORT OF THE QUINCY CHILD GUIDANCE CLINIC

January 21, 1943.

It gives me great pleasure to present the sixteenth annual report of the Quincy Child Guidance Clinic for the fiscal year ending November 30, 1942.

The Clinic, under the auspices of the Massachusetts Division of Mental Hygiene, has continued to serve the children of Quincy and its surrounding towns since its establishment in 1926. Its steady growth and development bear witness to the fact that its service has fulfilled a real need in the field of preventive medicine. Children, presenting symptoms of personality, emotional and behavior disorders, are provided treatment in order to help preclude if possible their developing problems of delinquency, dependency and mental disorders in later life. With the war industries swelling the population of the City, we find that the requests for treatment are far greater than the present facilities will permit. It is hoped that a second half-day weekly session in the near future will be made possible so that cases may be accepted at the time of their referral and in the order of their urgency.

The Staff of the Clinic is composed of Doctor Julia Deming, Psychiatrist; Mrs. Edith Carlson, Psychologist; and Miss Dorothy M. Parkhurst, Psychiatric Social Worker. It is the function of the Staff to study the child as a whole from the standpoint of his physical, emotional and social health, and to create among adults a general understanding of the child's needs for healthy mental and physical development. A portion of the Clinic's activities is directed toward interesting persons in the community in the prevention of problems of maladjustment in children through education in the principles of Mental Hygiene.

The training of students in the field of Child Guidance is an important aspect of the Clinic program. During the Spring session, two psychiatric social service students were assigned for training from the Simmons College and the Boston University Schools of Social Work, and at the present time one social service student is receiving her field training under the supervision of Miss Dorothy M. Parkhurst, Psychiatric Social Worker. Speech instruction is made available to children presenting speech difficulties through the service of a speech therapist in training at Emerson College. This work is under the guidance of Mr. Samuel D. Robbins, Supervisor of Education in the Massachusetts Division of Mental Hygiene. Classes in occupational therapy are conducted weekly by a student therapist from the Boston School of Occupational Therapy, who is under the direction of Miss Katherine Orr, the School's Field Work Supervisor.

A review of the statistics of the Quincy Child Guidance Clinic indicates a slight decrease in the number of cases carried from that of the previous year. There is, however, a marked increase in the number of visits by children to the Clinic. This is most encouraging as it reveals that treatment has been more intensive and diagnostic service has been kept at a minimum during 1942.

Quincy Child Guidance Clinic—1942

Total Number of Clinic Sessions	45
Total Number of Cases Carried	157
Total Number of New Cases	78
Total Number of Old Cases	79
Total Number of Visits by Children to Clinic	1010
Total Number of Interviews	2564

It is interesting to consider the sources from which the cases were referred. Although the schools referred more cases than any other source, these referrals were only slightly more than half the number reported in 1941. There were four times the number of referrals by physicians when compared to the statistics of last year, which is significant of the growing interest in the field of Metal Hygiene among members of the medical profession. The number of referrals by friends and relatives also increased, and this is gratifying to the Clinic personnel as it is indicative of an appreciation of the service received.

Sources From Which Cases Were Referred

Schools	29
Physicians	24
Health Agencies	3
Friends and Relatives	14
Family Agencies	6
Children's Agencies	1
Other	1
Total Number of New Cases Referred	78

I wish to express my sincere gratitude to the personnel of the Quincy Child Guidance Clinic who have contributed to the success of the Clinic's program by their efficient and faithful service. I wish also to express my appreciation for the cooperation and assistance extended to me by the Commissioner of Health, the Director of the Well-Baby Clinic, the Superintendent of Schools, the School Guidance Department, and the many interested persons in the community. I feel that we may look forward to 1943 as a year of further growth and expansion.

Sincerely yours,

EDGAR C. YERBURY, M. D.,
Director, Massachusetts Division of Mental Hygiene and Research.

REPORT OF NURSE WORK IN PAROCHIAL SCHOOLS

January 1, 1943.

We hereby jointly submit a report of our combined activities in the Parochial Schools for the year ending December 31, 1942:

Number of visits to schools	189
Number of vision tests given	469
Number of pupils seen by nurses in office	622
Number of pupils referred to private M.D.	35
Number of pupils weighed and measured	846
Number of home visits	143
Number of health inspections	3,158

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.
EVELYN R. KELLY, R.N.

INFANTILE PARALYSIS POST TREATMENT CLINIC REPORT

January 28 1943.

The following is the report of the activities of the Quincy Treatment Clinic for Infantile Paralysis cases:

During 1942, as in previous years, two physio-therapists went to the Dispensary on High School Avenue each Monday, except during August, the vacation month. Forty-three clinics were held at which five hundred and eighty-one treatments were given. Some of the patients received gait and postural training as well.

There are forty active cases in the district with twenty-eight attending the Clinic quite regularly. Three new cases were added during the year, one of them unable to attend the Clinic because of petit mal.

We are happy to report that one patient who has worn a long leg brace since the onset of her illness in 1937 is now able to go without it entirely, and another whose onset of paralysis was in 1941 is now permitted to go part time without his arm brace. Still another has shown increased strength in the muscles about the ankle as a result of wearing a plaster cast at night to hold the foot in a position advantageous to the weaker muscles.

One of the most faithful of the Clinic patients has been accepted in the Army Air Corps and we are told that three other patients of former years have enlisted in the armed services of our Country.

One hundred and seventy-seven visits were made to the Central Clinic at the Children's Hospital for the purpose of consultation with the Clinic's surgeons and for apparatus repairs and adjustments.

Very truly yours,

WILLIAM T. GREEN, M.D.,
Director of Clinics.

REPORT OF COMMUNICABLE DISEASE NURSE

January 1, 1943.

I herewith submit my annual report as Communicable Disease Nurse for the year ending December 1942.

Two thousand, three hundred and sixty-seven cases of notifiable diseases were reported as follows:

Bacillary Dysentery	1
Chickenpox	149
Dog Bite	202
Encephalitis	2
German Measles	30
Lobar Pneumonia	155
Measles	830
Malaria	1
Meningitis Influensal	1
Meningitis Pfeiffer Bacillus	1
Meningitis Meningococcus	2
Mumps	687
Para B Typhoid Fever	11
Typhoid Fever	1
Trachoma	1
Septic Sore Throat	4
Scarlet Fever	98
Whooping Cough	191
Total number of visits	2,281

Measles	1,348
Para Typhoid Fever	271
Bacillary Dysentery	4
Whooping Cough	194
Scarlet Fever	380
Public Schools	23
Kindergarten	3
Q. H. Social Service	5
V. Disease	3
Visits by other nurses	50

Diphtheria

This is the third consecutive year without a case being reported. As usual immunization clinics were held during the year. A total of 1,762 children were immunized, 734 by their family physician and 1,028 at the clinics.

Age group as follows.

Under 1 year	112
1 year	294
2 years	388
3 years	198
4 years	63
5 years	185
6 years	253
7 years	142
8 years	40
9 years	19
10-14 years	48
Not stated	20

Scarlet Fever

98 cases reported, 140 cases less than in 1941. Twenty cases were hospitalized at John Haynes Memorial.

Typhoid and Para B Typhoid Fever

11 cases of Para B Typhoid Fever and one case of Typhoid Fever reported. 133 release specimens were taken and sent to State Laboratory. One death occurred from Para B Typhoid Fever.

Whooping Cough

5 cases of 191 cases reported were hospitalized.

Anterior Poliomyelitis

None reported during the year 1942.

Clinics attended		65
Venereal Disease	46	
T. A. T.	9	
Pre-school Dental	5	
Baby	3	
Undernourished Children	1	
Orthopedic	1	
Office hours daily 9-9:30 A. M.-1-1:30 P. M.		
Children seen in office		572

Certificatess were given children to return to school as follows:

Chickenpox	102
Mumps	380
Measles	41
Whooping Cough	45
German Measles	4

In the follow-up work, the 2,281 visits made included placarding, settlement histories, revisits, examination of contacts for release from quarantine, school visits and investigation of complaints.

Monday and Wednesday afternoons were spent in St. John's Parochial School as school nurse.

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.,
Contagious Disease Nurse.

DENTAL CLINIC REPORT

January 1, 1943.

As in the past, the attendance at the Dental Clinic has been very good, which indicates that the parents are concerned and also appreciative of this service.

Dentistry of today, leads not only to prevention but also towards the development of health in children, by training the parents in the right direction. By this means, we hope to spare the coming generation the dental troubles which we, at some time have undergone. This was brought out in the open when so many of our young men were rejected from joining the armed forces because of dental defects.

Miss Dorothy Della-Lucca, Dental Hygienist who assists me in the morning clinic, does prophylactic work for the children in the afternoon. She instructs the children on the correct use of the toothbrush and the importance of a clean and healthy mouth.

I want to extend my thanks to you, as Health Commissioner and also to the Health Department and to the School Nurses, for the co-operation I have received during the past year.

Respectfully submitted,

LOUIS E. SULLIVAN, D.M.D.
School Dental Clinician.

REPORT OF PRE-SCHOOL DENTAL CLINIC

January 1, 1943.

I herewith submit to you the report of the Pre-School Dental Clinic for the year ending December 31, 1942.

Number of	clinics	99
"	" children attending clinics	870
"	" different children treated	180
"	" appointments not kept	178
"	" children refusing treatment	21
"	" teeth filled	458
"	" " extracted	41
"	" prophylactic treatments	105
"	" treatments (drainage, grinding)	80

Respectfully submitted,

DOROTHY A. DELLA LUCCA,
Dental Assistant.

REPORT OF SCHOOL DENTAL CLINIC

January 1, 1943.

I herewith submit to you the annual report of the School Dental Clinic for the year ending December 31, 1942.

Number of children examined (Gr. I-III)	3,311
Number of dental clinics	198
Number of different children treated	570
Number of appointments given out	3,104
Number of appointments not kept	441
Number of emergency cases	45
Number of children attending clinics	2,708
Number of children refusing treatment	32
Number of completed cases	326
Number of permanent teeth filled	1,123
Number of temporary teeth filled	541
Total number of teeth filled	1,664
Number of permanent teeth extracted	135
Number of temporary teeth extracted	646
Total number of teeth extracted	781
Number of prophylaxis (Gr. I-III)	328
Number of prophylaxis (Gr. IV-VI)	750
Number of prophylaxis during summer (Gr. IV and upper grades)	226
Total number of prophylaxis	1,304
Number of cases dismissed needing porcelain fillings	25

Respectfully submitted,

DOROTHY A. DELLA LUCCA,
Dental Assistant.

REPORT OF SANITARY MILK INSPECTOR

January 1, 1943.

I herewith submit my annual report for the year ending December 31, 1942.

The following statistics refer to all milk, cream, ice cream, chocolate milk and oleomargarine produced, packaged and distributed in the City of Quincy, Mass.

Dairies in the City of Quincy—Four; totalling 100 cows.

Total number of quarts of milk produced daily by dairies in Quincy (approx.)	1,300
Total number of cows in nearby dairies producing milk for the City of Quincy	1,500
Number of producers in New England Milk Shed producing milk for Quincy (approx.)	9,000
Milk contractors selling and delivering milk, cream, and ice cream in the City of Quincy	52
Number of vehicles used for distributing milk, cream, ice cream and dairy products in the City of Quincy (All have been inspected)	200
Milk and ice cream manufacturing and processing plants in Quincy (inspected weekly)	10
Amount of milk pasteurized in Quincy daily (quarts)	45,000
Amount of milk consumed in Quincy daily (quarts). All pasteurized except certified	41,000
Ice cream manufactured in Quincy daily. All pasteurized (gallons)	1,000

Ice cream sold and consumed in Quincy daily. All pasteurized (gallons)	3,000
Certified milk sold in Quincy daily (quarts)	175
Grade A milk sold in Quincy daily (quarts)	2,000
Cream, all grades, sold in Quincy daily (quarts)	2,200
Buttermilk sold in Quincy daily (quarts)	500
Retail licenses issued for the sale of milk, cream, ice cream and oleomargarine	752
Milk samples collected for bacteria and chemical analysis	1.520
Milk samples collected raw before pasteurization	186
Milk samples collected below State standard for fats and solids	4
Milk samples collected in excess of State and City standards for bacteria	37
Milk samples collected for Phosphatase test	752
Ice cream samples collected for bacteria and chemical analysis	32
Number of dairy inspections	419
Number of dairy barn inspections	419
Number of processing plant inspections (milk, cream and ice cream)	381
Store milk and ice cream cabinets inspected	596
Number of vehicle inspections	795

The increased processing and consumption of milk and milk products, to a great extent, is due to the increased war production. At Fore River Plant over 4,000 quarts a day are consumed.

Due to the shortage of help and the war effort, ten dealers totalling about 1,000 quarts a day, sold out to larger companies but this has in no way interfered with the production and sale of an adequate supply for the city.

The rationing of tires and gasoline has been overcome to a certain extent by the cooperation of the dealers themselves by every-other-day delivery and if no further restrictions are enforced will be satisfactory for the duration.

Contrary to some reports from other localities, Quincy, up to the present time, has a clean, wholesome, safe supply of milk. This may be due to the location of so much war industry but more probably to the enforcement and insistance of this department.

In order to conserve rubber and gasoline the government has advocated the closing of 50 per cent of the country receiving plants.

In 1942 I inspected about 50 per cent of these plants and I recommend the same for 1943.

Respectfully submitted,

JOHN J. CURTIN,
Sanitary Milk Inspector.

REPORT OF BACTERIOLOGIST

January 1, 1943.

Plate counts (milk)	736
Plate counts (ice cream)	8
Babcock test (ice cream)	8
Microscopic examinations (milk)	736
Chemical examinations (milk)	736
	2,224

EDWIN E. SMITH, M.D.

REPORT OF THE VENEREOLOGIST

January 1, 1943.

Male Clinic

Patients treated for gonorrhoea	3
Patients treated for syphilis	14
Patients lapsed treatment	4
Patients discharged	4
Patients transferred to private doctors	2
Died	1
Remaining under treatment	5
Total visits to clinic	178

Female Clinic

Visits by contacts	17
Treated for gonorrhoea	1
Treated for syphilis	13
Lapsed treatment	7
Discharged	3
Remaining	4
Total visits to clinic	222

EDWIN E. SMITH, M.D.

REPORT OF ANIMAL INSPECTOR

February 7, 1943.

I hereby submit my report for the fiscal year ending December 31, 1942.

Number of animals quarantined under suspicion of Rabies—202.
There were no positive cases of Rabies in the city.
Under orders of the Director of Livestock Disease Control, no inspection of livestock was conducted.

Respectfully submitted,

EDWARD A. deVARENNES, V.S.,
Inspector of Animals.

REPORT OF INSPECTOR OF PLUMBING

January 1, 1943.

I hereby submit my annual report as Inspector of Plumbing for the year 1942.

Applications filed	1,492
Received for permits	$1,827.25

The following is the number of applications filed and amount received by months:

	Applications	Received for Permits
January	119	$126.00
February	117	113.50
March	187	258.75

REPORT OF THE INSPECTOR OF MEATS AND PROVISIONS

For the Year 1942

January 1, 1943.

Following is my report for the year ending December 31, 1942.

Regular inspections	2901
Bakery truck inspections	202
Vegetable truck inspections	29
Complaints	74

Condemned as unfit for human consumption:

Meat—All kinds	2552 pounds
Fish—All kinds	1657 pounds
Groceries and Canned goods	4340 pounds
Fruit and Vegetables	2348 pounds

Eating establishments in Quincy:

Restaurants	110
Soda fountains	42
Lunch stands	12
Diners	8

Food Stores:

Grocers, wholesale	2
Meat, wholesale	1
Meat markets	91
Variety stores	69
Fruit and Vegetable stands	14
Bakeries and Bakery stores	22
Fish markets	6
Candy manufacturers	3
Delicatessen stores	3
Bottling establishments	4
Liquor establishments—all kinds	134

During the year 1942 health pictures were shown to 32 groups totaling more than 5000 people. All the pictures related to public health and were enthusiastically received.

It is again urgently recommended that arrangements be provided for taking bacteria counts on eating and drinking utensils.

It is further recommended that the licensing board consult the health department before granting licenses to any applicant for a food or liquor establishment.

Respectfully submitted,

CLARENCE L. EDWARDS,
Inspector of Meats and Provisions.

ANNUAL REPORT OF THE QUINCY CITY HOSPITAL

For the Year Ending December 31, 1942

To His Honor the Mayor, the President and Members of the City Council:

Gentlemen:

The Board of Managers of the Quincy City Hospital submits the following report for the year 1942.

This has been a year of great changes and many problems in the affairs of our hospital. Events have followed each other in rapid succession, as the progress of our war effort and its resulting demands upon our doctors and nurses have taken many of our people away from us into the service of our country.

Defense industries have made it difficult to hold together our maintenance and service groups, and the rationing restrictions on food and equipment have made additional demands upon our ingenuity and resourcefulness in our effort to maintain the standards which constitute a proper course for the administration of such a hospital as would meet with your approval.

In spite of these difficulties and with the loyal help of our personnel, we have completed the year in a manner to justify some pride in our achievement and to satisfy the people of Quincy.

Changing conditions have brought about a re-adjustment of wages throughout the hospital. Increased demands have made necessary certain expansions of services as contained in a detailed report of our Superintendent.

The finances of the hospital have been on the whole, quite satisfactory, in fact rather better than we anticipated. For several years we have succeeded in reducing our net cost per year.

The Board started the year 1942 very doubtful of the possibility of continuing the record of reduced cost, but our final figures show that there has been a substantial saving in 1942 over 1941.

The physical condition of the property has been maintained, and new equipment added where needed so that our hospital may compare favorably with the best in the country.

Work was started and will soon be finished, on the fifty-bed temporary building which has been constructed for emergency use. While this is not an ideal building in appearance or location, the security which we feel in having this extra facility against the time when it may be urgently needed, is justification for its existence.

Later, when it is possible to secure materials, not now available, or for some time to come, we would recommend further development of this unit to remedy its present shortcomings.

This December marked the termination of the connection with the Board, of Judge James F. Reynolds. We regret his going and shall miss him very much.

We also regret the resignation from the Board of Mr. T. Clinton Johnson, who moved away from the City.

Mr. Frank E. Remick was appointed to replace Mr. Johnson, and Mr. Samuel G, Sloane for the membership left vacant by Judge Reynolds.

The Board wishes to commend the Superintendent, Dr. Joseph P. Leone, and his staff, for their remarkable accomplishment under great difficulties.

We continue to be grateful to all those who have helped to make this difficult year a successful one.

Board of Managers,

MR. FRANKLIN S. NICHOLS, *Chairman*
MRS. WILLIAM A. ROBB,
MR. J. BROOKS KEYES,
MR. FRANK E. REMICK,
JUDGE JAMES F. REYNOLDS, *Secretary.*

QUINCY CITY HOSPITAL
STATISTICAL REPORT

	1941	1942
Patients in hospital January 1st	220	267
Patients admitted during the year	8,308	9,126

REPORT OF THE SUPERINTENDENT

To the Board of Managers of the Quincy City Hospital:

Mrs. Robb and Gentlemen:

For the eighth year, it is my pleasure and honor to present to you the fifty-third annual report of hospital activities with the year ending December 31st, 1942.

In normal times, the superintendent of any hospital is faced with many complex problems in the administration of a hospital. December 7th, 1941, was the beginning of more complex and greater problems for the hospital superintendent. Since then, more patients have been treated and admitted to hospitals. Due to the needs of men and women by the armed services and war industries, the hospitals have been called upon to furnish doctors, nurses, and other personnel; thereby reducing the personnel of the hospital. Like other individuals and institutions, we are called upon to do more with less help and less of everything. Already our entire staff and personnel have responded in meeting this challenge.

The year just ended has proved this fact. The number of admissions for 1942 were 9,126 with 92,458 patient days with a personnel of 302 paid employees, whereas in 1941 there were admitted 8,308 patients with 86,356 patient days, with a personnel of 316 paid workers. This would not be possible were it not for the volunteer aid that has been given to us by the Red Cross Nurses' Aides, doctors' wives, and other women acting as "Ward Secretaries," and the W. P. A., both women's and men's divisions. In addition, we were aided with sewing by the N. Y. A. for the first six months of this year.

Those of our employees in active service are as follows:

Elliot Vining	Elinor Rich
Richard French	Frank Sullivan
George Hoyt	Arthur Shaw
Anthony Tocci	Arthur Kelley
Anthony Capobianco	Aloysius Sprunk
Leonard Rowe	William Simpson

Charles Hoyt, Jr.

In addition to enrolling volunteer help, we have found it necessary to engage men and women over seventy years of age, some of whom have physical handicaps. With the aid of the State Commissioner of Civil Service, the age limit has been lowered so that boys and girls under eighteen years may be employed, and out-of-town citizens are now eligible to be hired at our hospital.

Preparations have been completed to meet the problems of war, namely:—

1. "Blackout" program. All is in readiness in case of an air raid for the hospital to operate in a blackout.

2. Windows have been taped; skylights have been covered with wire and planks to minimize injury, due to the flying of glass which may result from a bomb explosion or concussion from bomb explosions.

3. An emergency light system has been installed throughout all corridors in all hospital buildings.

4. In addition to the existing storage batteries, (units that service the Operating Room and Delivery Room for ten hours) a gasoline oil engine portable unit has been provided by the Quincy Defense Council and installed in the boiler room. This unit will run continually and indefinitely to furnish light to the emergency lights in all corridors and for the operation of any oxygen tents which may be in use during a complete blackout.

5. "Fire trucks," containing the necessary implements — sand, hose, shovels, pick axes, fire shield, asbestos aprons, goggles, gloves, — have been located on each floor of the hospital.

6. Emergency kits with the necessary supplies, have been purchased and are now ready for any emergency.

7. Extra medical and surgical supplies, extra bedding, additional cots, and blankets, have been obtained.

8. Plans or the evacuation of our patients have been completed which also include the handling, treatment, and admission of casualties.

9. A Blood Bank, with the financial aid of the Federal Government, has been installed to prepare 250 units.

10. All key personnel has specific instructions for action, if and when the emergency comes.

It's been said that "an emergency ceases to be an emergency" when adequate plans have been made beforehand. As far as it is possible, we at the Quincy City Hospital are prepared for that eventuality.

The splendid response of our personnel has made it possible for the hospital to carry on. The Board of Managers, with the approval of the Mayor and City Council, showed their appreciation to the employees through an increase in salary, beginning January 1st, 1942. In addition, an extra $2.00 per week for the entire staff of employees was given by the City Council and Mayor. This special appropriation may be continued for the duration.

Had it not been for the enclosing of the sunporches of the M. & S. Building in 1941 and those of the Hunting Building in 1942, we could not have admitted the 9,126 patients this year. These additions have made it possible for us to increase our bed capacity from 250 to 274 and our bassinettes from 50 to 60, making our hospital a 334-bed hospital. With the completion of our new unit and the use of our porches, the Quincy City Hospital will be rated as a "400" bed hospital by the end of 1943. In addition to the enclosing of the porches, a new "Formulary Room" was built by the W. P. A., at the north end of the Hunting Building, second floor.

In this report is included a statistical chart showing the activities of the hospital for the past twelve years.

Staff

We regret to record in this report the death of Dr. James H. Cook, during the past year. He was an Associate Surgeon of our Staff. He generously gave of himself and ably served on our Surgical Staff from 1923 to March, 1942.

The Quincy City Hospital is proud to report the following doctors who have responded to the call of the service of our country. They are:

Dr. Henry H. A. Blyth
Dr. Edmund Carey
Dr. Fred P. Costanza
Dr. Arthur Rappeport
Dr. Ensio K. Ronka
Dr. Leslie H. VanRaalte
Dr. George MacKinnon
Dr. Emerson Read
Dr. Maurice Rothman
Dr. Morgan Sargent
Dr. William Helfrich
Dr. Walter McClintock
Dr. Alfred Mahoney
Dr. John Nugent
Dr. Max Stein
Dr. Francis King
Dr. John M. McGowan
Dr. David Karp
Dr. Frank Chiminello
Dr. William A. McCausland

Dr. Walter M. O'Brien

At this time, I wish to extend my thanks to the entire staff for the co-operation given me this past year. In order that we may carry on during the war, I ask for their continued understanding, co-operation, and loyalty. Only in this way can we meet the ever-increasing responsibilities in the care of the sick and injured on the home front.

Nursing Department

The Quincy City Hospital School of Nursing, like all other hospitals, has been affected by the war. Our nurses have generously responded to the call of our armed forces.

Thelma Ball, R.N.

Leah Gowell, R.N.

Lillian H. LaFond, R.N.

Our speed-up program for the training of more nurses started some five years ago, at which time there were enrolled in our school, forty students. Since then, our number has been increased to one hundred and twelve students. To make this possible, our

teaching staff has had to be increased. Graduate nurses have been moved out of the dormitories, to make room for this increased enrollment of students at a cost of $7,935.00 for 1942. Each nurse living out is given $15.00 per month for this purpose.

The training of nurses' aides and volunteer Red Cross Nurses' Aides program, under the able leadership of Mrs. Wilfred Funnell, started soon after December 7th, 1941. To date, we have twenty-nine "pink" nurses' aides. During the past year, the Quincy Chapter of the American Red Cross, using our hospital facilities, graduated seventy-seven Red Cross Aides. Unfortunately, many of these aides have not completed their one hundred and fifty hours of volunteer service at the hospital. However, there are a number of this group that have given in excess of the one hundred and fifty hours. We are sincerely grateful to all the nurses' aides for services rendered. They have been a great help to us during the past year.

A refresher course for graduate nurses was conducted by our School of Nursing. This also is part of our "war effort" in meeting the nurse shortage, due to our younger nurses entering the military services.

Dietary

As the war progresses, the difficulties confronted by our Dietary Department increase. Rationing and shortages of all food items will seriously affect the care and treatment of all patients admitted to hospitals, for the duration.

The hospitals, like individuals, will be rationed; therefore, it becomes necessary to "streamline' and simplify the food service. All patients, as well as employees, are now on rations. Menus will consist of the simpler foods which are available.

A persistent war on waste must be carried on. No one need go hungry in a hospital if patients and employees co-operate in this war against waste.

The facilities of the Dietary Department are being used to capacity. To relieve the congestion in the nurses' dining room, facilities for a cafeteria service were installed during the summer of 1942. In order to feed our personnel, student nurses and volunteer workers, it's been necessary to stagger the serving schedule especially during the lunch period.

Housekeeping Department

The greatest turnover of personnel in the hospital took place in the Housekeeping and Dietary Departments. This is due to the schedule of broken hours which are necessary in these departments.

It was necessary to install a new washer in our Laundry during the past year. It would have been difficult to operate our Laundry satisfactorily without this new piece of equipment.

Maintenance Department

We have been fortunate in retaining a skeletal force of the older group of men in the Maintenance Department under the supervision of our Chief Engineer. The men now in our employment are capable of making necessary repairs to any hospital equipment which may break down during this emergency.

At this time, I wish to express my appreciation for the continued co-operation of the Board of Managers.

We wish to express our thanks to the Quincy Patriot Ledger for its continued interest and help in conveying our story to the citizens of Quincy.

For the patients and the hospital personnel, we express our appreciation and thanks to our many friends, Campfire Girls, Girl Scouts, Needlework Guild, civic clubs, and other organizations for their kind generosity in sending magazines, clothing, toys, scrapbooks, and flowers to the hospital.

To the Mayor, the City Council, and all City Departments, we wish to say "Thank You" for the response and help given us when called upon on the many occasions during the year.

To my faithful and loyal assistants and employees, I am duly grateful for the support given me for the year just ended.

Respectfully submitted,

JOSEPH P. LEONE, M D.,
Superintendent.

REPORT OF THE SCHOOL OF NURSING AND THE HOSPITAL NURSING SERVICE

To the Board of Managers of the Quincy City Hospital:

Gentlemen:

The effect of military activities upon the nursing service in civilian hospitals has been felt throughout the country. In an attempt to meet the rapidly changing needs, our efforts have been concerned with the following significant activities:

1. Replacing the gradually depleting number of graduate staff nurses, many of whom have resigned to enter the Army and Navy Nurse Corps.

2. Increasing the enrollment of student nurses. These young women assist materially in the care of patients during their period of education.

3. Locating the inactive and married graduate nurses who can work on a part-time or hourly basis. This group helps replace the permanent graduate staff nurses who have resigned.

4. Assigning Volunteer Red Cross Nurses' Aides to all wards. These women have completed the standard 80-hour course taught at the hospital.

5. Offering a refresher course at the hospital to those graduate, registered nurses who are able and willing to assist during the present emergency. Nineteen nurses have completed an 86-hour course. As many more would avail themselves of the same opportunity, if there was a nursery school located conveniently to the hospital where small children could be placed.

6. Adopting "the replacement system" whereby the graduate, registered private duty nurses, who are regularly employed at the hospital, replace or fill the vacancy of a staff nurse for one month each year.

7. Employing high school students during the vacation period in the capacity of nurses' aides.

The continued loss of full-time members from the staff and the orientation of many new people to the particular routines of this hospital has had its repercussions despite a sincere effort to control the situation by means of class room instruction and ward supervision for the various groups.

The latest statistics show that twenty to twenty-five thousand graduate nurses are now serving with the armed forces, and it is estimated that the enrollment of three thousand additional nurses per month must be maintained to meet the future needs.

Graduates from this school are serving in military hospitals in various parts of the world. We can anticipate that just so long as war continues, nurses who are eligible for military service will answer the call of their country.

Schools of nursing are being constantly reminded of their individual responsibility to help meet the urgent need for more nurses. Appeals come periodically from the offices of the organizations concerned with the recruitment of nurses for military service. Among three of the responsibilities placed upon schools are:

1. Stimulate and maintain capacity student enrollment.

2. Offer refresher courses for the inactive graduate nurses who wish to return to nursing for the duration of the war.

3. Offer succeeding courses for the training of Volunteer Red Cross Nurses' Aides.

A Curriculum Committee has been organized during the year with the membership made up of two appointed members from the Medical Staff, the President of the Medical Staff, ex officio, the Chairman of the Advisory Committee to the School of Nursing, the Superintendent of the Hospital, the Principal of the School of Nursing and the Instructor of Sciences. This committee has given valuable assistance to the school faculty. It has been especially helpful to have their advice at a time when we have suffered a heavy loss of regular lecturers from the medical staff.

The Advisory Committee of the School has met regularly each month to consider and advise upon the activities concerned with the educational trends in nursing, and problems dealing with the administrative policies of the school. Attendance at all meetings has been most gratifying, which indicates the sincere interest of the members in the conduct of the school.

We announce with regret the resignation of Miss Rita Kelleher, instructor of sciences for more than four years, who leaves us early in January for a similar position in a larger school. Miss Dorothy M. Smith, a graduate from this school in the Class of 1936 and from Teachers' College, Columbia University, in 1941, has been appointed to fill the vacancy.

Graduation exercises for a class of 18 students was held on June 18th in the auditorium of the senior high school. Reverend Victor V. Sawyer gave the commencement address.

The graduating class this June will number thirty-four students. From the available records on file we believe it will be the largest class that has ever graduated from the school. The total number of enrolled students on December 31, 1942 is 112, and this seems to be the highest student census on record.

It seems consistent and also very fortunate that the enrollment of students increased at a time of national emergency and when the hospital reports the highest daily average number of patients in its history.

For the purpose of record, the following statistics are given:

Superintendent of Nurses and Principal of the School of Nursing	1
Assistant Superintendent of Nurses and Principal of the School of Nursing	1

Instructor of Sciences	1
Instructor of Nursing Arts	1
Ward Instructors	2
Day Supervisors	2
Night Supervisor	1
Assistant Night Supervisors	2
Head Nurses and Assistants	14
Head Nurse (Night)	1
Graduate Staff Nurses (Full-time)	55
Graduate Staff Nurses (Part-time)	6

Student Nurses

Senior Students	35
Intermediate Students	57
Junior Students	20
	112

Respectfully submitted,

HELEN O. POTTER, R.N.,
Superintendent of Nurses
and Principal of the School of Nursing

REPORT OF THE SOCIAL SERVICE DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

Gentlemen:

The increased financial prosperity of the community is still reflected in the decrease in the number of persons coming to the hospital on service, especially for obstetrical care and tonsillectomies. In these instances, particularly, every effort is made by our department to refer all patients who can possibly arrange for private care to their family physicians. We do not feel, however, that employment in a war industry should categorically bar a person from service care, but we try to apply the principles of social casework to each case, judging it on its individual merits and circumstances. We realize that not every man at the shipyard, for instance, is earning the high wages commanded by skilled craftsmen. Many of those now employed there are but a few months removed from welfare and W. P. A. assistance and are using a large part of their weekly earnings to pay debts accumulated during the lean years.

I. Case Load

Total cases investigated		1,708
Service patients	1,487	
Accident cases	158	
Old accounts	63	
Action taken on financial investigations of service cases:		
Free	132	
Part-pay	75	
Referred to Welfare or Health Departments	195	
Pay	848	
Other types of service cases:		
Welfare	88	
Old Age Assistance	118	
Aid to Dependent Children	31	
Number of home calls made		685
Referrals:		
To other clinics and hospitals	37	
To City Home	5	
To Convalescent Home for Children	2	
To Visiting Nurse Association	18	
Home nursing	12	
Nutritionist's service	6	
To private convalescent homes	42	
To foster homes (children)	6	
To Red Cross	9	
Home Service	5	
Motor Corps	4	
To other social agencies	30	

We find that the decrease in the quantity of cases has enabled us to improve the quality of our casework. While the problems of financial dependence are not so prevalent, we have noted an in-

crease in marital and domestic difficulties, in the need for boarding homes for children, and especially in the problems relating to chronic illness and nursing care for the aged.

II. Prenatal Clinic

As mentioned before, every effort is made to bar from Prenatal Clinic any patient whom we feel should have a private doctor. Consequently our clinics have become much smaller, and even the addition of service-men's wives has not served to bring our total number of new patients over 100. These patients made 545 visits to clinic.

Because of the wartime restrictions on travel, the Visiting Nurse Association has discontinued routine home visits to prenatal patient, but a nurse and a nutritionist attend every clinic meeting and give lectures and demonstrations and answer the patients' questions.

III. Tumor Clinic

Because of the apparent lack of interest on the part of the community as a whole, due in part to our proximity to Boston with its old-established and specialized clinic facilities, the Executive Committee of the Quincy Tumor Diagnostc Clinic noted to discontinue the Clinic, as of August 15, 1942.

IV. Occupational Therapy

We still feel that there is a definite need for occupational therapy, or at least diversion for the patients in our hospital and regretted sincerely that the economies of the war program prevented the establishment of a full-time occupational therapy department. When this fact became apparent, Miss Elizabeth Marston, who had given generously of her time on a semi-volunteer basis, was advised to resign. The work is being carried on to a lesser degree by Mrs. William Shine, a volunteer, who comes each week and helps those patients whose stay in the hospital is longer than average to make use of their spare time.

V Social Service Committee

In December, 1941, Mrs. Malcolm C. Sargent, who had served graciously and efficiently as chairman of the Social Service Committee for five years, indicated her desire to resign, and in January, 1942, Miss Helen Gavin was elected chairman. Miss Ruth Darr resigned as secretary of the committee, retaining her post as treasurer, and Mrs. Harold P. Newell was elected secretary.

The Sixth Annual Charity Ball was held on April 17, 1942, at the Neighborhood Club, and netted $905.78 for the Social Service Fund. Mr. Myron N. Lane was chairman, and the size of the profits of such a venture in wartime is no small tribute to his personality and perseverance.

The Fourth Annual Charity Bridge party was held on November 13, 1942, at The Gordon House, and the net profits were $68.29.

In keeping with its custom of presenting to the hospital a permanent piece of equipment, or a large gift to help purchase new equipment, the Committee gave $350 in 1942 to be used in the establishment of the Blood Bank for civilian defense.

We sincerely appreciate the time and effort of members of the Committee, not only in connection with our two large money-making projects, but in their whole-hearted response whenever the hospital has needed their help. At the present time, there are three members of the Committee who are volunteer clerical assistants in the wards of the hospital.

VI. Acknowledgements

While the outward aspects of our work continue unchanged—the financial investigation of each service admission and determination of ability to pay, with adjustment of bills or referral to other agencies for reimbursement, the investigation of automobile accidents, with the financial status of the patient taken into consideration, and insurance companies and lawyers contacted, the administration of Prenatal Clinic, and the arranging for service tonsillectomies—during the past two years we have been able to devote more time to the individual patient, and by studying him in all phases of his illness, we have been better able to help him adjust to the handicaps imposed by his illness, or to so improve his environmental and personal situation that he may become an independent member of society.

To this end it has been necessary to seek the aid of other social agencies, both here and in Boston, and it has been given in a full cooperative spirit. We also wish to acknowledge the help given by members of the hospital administrative, medical, and nursing staffs, which is sincerely appreciated by our department.

Respectfully submitted,

DUTH DARR, *Director*
Department of Social Service

REPORT OF THE X-RAY DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

Gentlemen:

The following is a report of the work done in the X-ray Department during the year 1942.

Personnel

Constance Larkin is the only one of the technical staff left from the 1941 group. Mildred Mack replaced Virginia Spaulding who resigned. Hilda Lundberg, R.N., replaced Mitchell Maloof, who resigned to enter the armed forces. Marie Cooney replaced Mary Popowitz, who resigned to enter the employ of the Bethlehem Steel Corporation.

New Equipment Desired

We need a new automatic thermostat in the dark room, in order to keep the solutions at a definite temperature, regardless of the temperature of the room. We need a new rotating anode x-ray tube for finer detail.

Room for Low Voltage Therapy

We still need a change in the location of the low voltage therapy room on account of the difficulty of getting bed-ridden patients up four steps for treatment.

The following is a statistical report of the work done during the year 1942:

Diagnostic patients	5,132
Therapy patients	307
Radium therapy patients	31
Total	5,470

We desire to express to the Administration and the Staff our appreciation of their continued cooperation.

Respectfully submitted,

CHARLES WHELAN, M.D.
Roentgenologist.

REPORT OF THE LABORATORY DEPARTMENT

To the Superintendent and Board of Managers of the Quincy City Hospital, the report of the Clinical and Pathological Laboratory is hereby submitted.

Gentlemen:

The year 1942 showed a further increase in laboratory tests. During the year the technical force of the Laboratory took over

work that was formerly done by the house officers. This included intravenous therapy, clyses, and blood letting.

The Blood Plasma Bank was started in May, and one of our technicians was assigned to this work. Later, Miss Marion Coady took over the technical work as a full time technician. The Blood Bank now has 145 units, and our objective of 240 units should be reached within the next few months.

There have been a few changes in the personnel of the department. Miss Elinor Rich, who has been connected with the Laboratory for a period of about ten years, is on a leave of absence, having enlisted in the service of the United States Government (the WAVES). Miss Rich has been outstanding as a technician, and has already progressed in her government work, and now holds a position of great responsibility. Miss Claire Malone was added to the technical force in February, 1942, and Miss Dorothy Kelley assumed the duties of clerk in the department in March, 1942.

The postmortem examinations during the year were somewhat reduced, although the percentage meets the requirements of the American Medical Association. This reduction in postmorten examinations is partly due to the shortage of house officers.

The equipment in the Blood Bank was principally furnished by the hospital, with an initial grant from the Federal Government.

We wish to thank the Superintendent and the Board of Managers for their continued support in supplying personnel and equipment to the departmeet.

The following is a condensed, classified report of the examinations made during the year:

State Laboratory Reports

Hintons	1,707
Wassermanns, blood	2
Kahn, blood	1
Wassermanns, spinal fluid	39
Davies-Hinton, spinal fluid	41
Spinal fluid, Gold Sol.	29

Female	2,706
Total Patients	5,125

The above constitutes a report of the work done in the Physical Therapy Department during the year 1942.

Respectfully submitted,

C. L. PAYZANT, M.D.

REPORT OF THE MAINTENANCE DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

Gentlemen:

The following is a report of the major work performed during 1942:

1. Installing black-out curtains and heavy wire mesh screens. Panelling off and taping windows. Installing platforms over Elevators, machine-rooms and skylights.

2. The installation of more than 17,000 feet of wire to supply more than 300 emergency lights throughout the hospital and homes.

3. The wiring for lights and signals and the heating installation of the Hunting Porches.

4. The wiring for and installation of Germicidal Lamps in the Nursery and Formula Room.

5. Rebuilding a discarded dressing sterilizer to a baby formula sterilizer and altering old basin sterilizers to comply with State Plumbing Code. The appliance used for this purpose also thermostatically controls the use of steam for sterilizing, accomplishing the saving of steam and preventing the deterioration of walls surrounding sterilizer from excessive evaporation.

6. The rearrangement of and repiping serving counter in cafeteria.

7. The partitioning and rearrangement of the Admitting Office.

8. Partitioning Rice Building from the Main Corridor.

9. Repairs to the M&S Building roof and to roof of connecting corridor between the Administration and Rice Buildings and the plumbing and installation of fixtures in the Blood Bank and the new Formula Room performed by outside help.

Several employees that have been with us for many years, have, during the past year, left us to go to work in Defense Plants. Due to the difficulty to obtain material and the Government's request to curtail all but necessary maintenance work, their places have not been filled. This has, in some instances, been the cause of unavoidable delay.

There has been, during the year, one Clerk-Stenographer added to the Maintenance Department to keep records of the department and, when time permits, assist in mimeographing forms used by various departments of the hospital.

The Heating Plant has, during the year, produced 40,691,356 lbs. of Steam. To produce this amount of steam, 346,903 gallons of No. 6 oil has been used at a cost of $14,638.79, making the mean cost of steam 35.95c per 1,000 lbs. of steam. The mean temperature as recorded at the hospital throughout the year, has been 49.68° Fahr. as compared with 51.29° in 1941.

The Refrigeration Plant has, besides the refrigeration of the Cold Storage Rooms, produced 371,600 lbs. of ice.

Respectfully submitted,

CARL E. ERIKSSON
Chief Engineer

REPORT OF THE AURAL SERVICE

To the Board of Managers of the Quincy City Hospital:

Gentlemen:

The Aural Service of 1942 was very efficiently served by Dr. Robert O. Gilmore, Dr. James M. Ward, and Dr. Walter L. McClintock, each one having served four months during the year.

During 1942 there were 9 Bronchoscopies, 1152 Tonsils and Adenoid, 9 Mastoidectomies, and 83 Sinus Operations performed.

I wish to express my sincere appreciation of the excellent cooperation from the Aural Service Members, Staff Members, Nursing and Hospital Staffs.

Walter L. McClintock, Capt. M.C.U.S.A. is now on active duty with the armed forces.

Respectfully submitted,

WILLIAM J. HARKINS, M.D.
Chief of Service

REPORT OF THE PEDIATRIC SERVICE

To the Board of Managers of the Quincy City Hospital:

Gentlemen:

The following is my report of the Pediatric Service for 1942:

I believe that during the year no quarantine of the ward was necessary for contagious disease.

During the year, five Americanaire Air Sterilizers have been installed in the Nursery. This is of proven value in cutting down respiratory disease. Also, one lamp has been installed in the babies' ward of Hunting-3. Two large humidifiers have been purchased, which are of great value in treatment of certain conditions where a moist atmosphere is required.

The next important change which was made was the installation of a new formula room, inasmuch as the old formula room was extremely crowded and inadequate.

The piazza at the end of Hunting-3 has been closed in, giving us many extra beds.

It is to be hoped that more sterilizer lamps can be installed in the rest of the Children's Wards, because experimental work shows that the number of air-borne bacteria are cut down to approximately one-fifth of the usual number before the installation of the lamps.

Respectfully submitted,

EDMUND B. FITZGERALD,
Chief of Service.

REPORT OF THE HOSPITAL LIBRARY

To the Board of Managers of the Quincy City Hospital:

Gentlemen:

We are extremely gratified to report that there has been a marked increase in reading done by patients during the year of 1942. In 1941 the circulation of books and magazines in the hospital library was 16,587, while in 1942 the circulation jumped to 20,767. This is an all-high record for our years of library service in the Quincy City Hospital. The increase is entirely within the adult circulation, however, because, we find, the circulation of children books and magazines has fallen off sharply. This may be a direct result of the discontinuation of story-telling in the children's wards. We feel that the three major factors causing this total circulation increase for the year are, (1) the increase in the hospital census, (2) the much larger circulation of magazines which we have experienced since the cessation of the sale of magazines within the hospital and (3) the discontinuance of the services of the occupational therapist.

All of our ingenuity has been called upon to appease the reading demands of the patients and staff this year. because of the drastic cut in the book budget which the Thomas Crane Public Library suffered in 1942. Because we have had to deny our book stock of many new popular and desired books, we have tried to fill in with old favorites and popular books of past years.

Our books in foreign languages are as much in demand now as ever. It is most pleasing to us to see the happiness brought to

our non-English reading public when they discover they can borrow a book in their mother tongue.

We realize the fact that the hospital personnel has been carrying a greatly increased load in the past year, and we appreciate their assistance to us in seeing that our books are returned when patients are being discharged. We hope that, in the future, they will be able to continue this aid to us, because it is only in this way that we can get back many of our books, and so cut down on our book losses.

We desire to express to the administration and the staff our appreciation of their continued cooperation.

Respectfully submitted,

CATHERINE M. ZOTTOLI,
Hospital Librarian
Thomas Crane Public Library

REPORT OF THE PUBLIC WELFARE DEPARTMENT

HON. CHARLES A. ROSS, *Mayor of the City of Quincy*:

The Department of Public Welfare respectfully submits the following report for the year ending December 31, 1942:

General Relief

Employment conditions have improved steadily during 1942 and with the increased opportunities for work our General Relief case load has declined. As a result, our Social Workers have been able to keep in closer touch with the individual families on aid and spend more time in the investigation of the needs of new applicants. The number of new applicants has not fallen off in proportion due principally to the wage earners joining the armed forces, physical disabilities through accidents and illness, and criminal abandonment of families. We have been able to avoid expense in many of these situations by referring such applicants to the courts, military relief agencies and private social organizations.

Including both General Relief and Hospital aid, we received 188 notices from the State and other cities and towns, of which we acknowledged responsibility for 102 and denied 86. These cases required a visit both for the financial status and a settlement history so we could determine what action to take. We sent 393 legal notices to the State and other cities and towns to hold them responsible for either aid or hospitalization rendered here, of which 355 were acknowledged and 38 denied. In the course of the year several cases were referred to us to assume the charges for care in the larger private hospitals, where the Quincy City Hospital cannot give the care required. All have been investigated for the family's financial ability to pay. Much work was done on automobile accident and workmen's compensation cases with the view of seeing that the hospital bills were paid out of the insurance settlements.

Our personnel has been further reduced in 1942. Mr. Vincent McCabe, one of our Social Workers, joined the U. S. Army in June and has been replaced by a military substitute. Two departmental cars and one truck have been stored for the duration.

The C. C. C. program terminated during the year and the W. P. A. is due to close entirely by June 1943. We hope that some of these workers will be able to obtain private employment, but many will undoubtedly be obliged to seek assistance.

The Federal Stamp Plan has been of great assistance to our low-income families during the year, but will probably be terminated during the coming year. The manager of this office resigned in September and has been replaced by Mr. D. Francis Sweeney, assisted by Mrs. Eva L. Whittier. During the year the total number of persons who participated was 17,782 with a total of $77,371.00 worth of stamps sold.

We have continued the Federal Surplus Commodities program as far as clothing and milk are concerned. These items to a value of $23,067.58 have been distributed during the year.

Investigations of claims of dependency for our three local Selective Service Boards have continued to be numerous. 399 investigations have been made for the three Draft Boards during 1942. In connection with the Civilian Defense Program, Commissioner Venna was appointed Civilian War Assistance Officer in this City by Commissioner Arthur G. Rotch, of the State Department of Public Welfare. In addition he replaced Mr. Floyd Folmsbee, as Chairman of the Social Service Committee in the Quincy Defense Council, as Mr. Folmsbee was elevated to Vice-Chairman of the Council.

Our truck and Departmental Chauffeur have been kept busy during the year. There were 72 pick-ups and deliveries of furniture, 147 moving jobs and 60 pick-ups of unsawed wood. In addition there were 51 patients transferred to and from hospitals, convalescent homes and other institutions. The truck was also used for other miscellaneous work such as transportation of surplus clothing, radios for Army use, etc.

Clinic and Dispensary

Our City Pharmacist, Romulus De Nicola, was another member of our Department to join the armed forces during the year. Fortunately we have been able to continue the operation of our clinic and dispensary through the cooperation of our City Physician and the Superintendent of our City Home, a registered pharmacist.

City Infirmary

Our City Infirmary has cared for a slightly lower weekly average of inmates during 1942 than in 1941. During the year we enlarged our garden area and had fine success in providing vegetables for our own use, the labor being furnished entirely by the inmates. The installation of the fire alarm system started last year, should be completed, and the building needs painting badly. Man hours of outside welfare has dropped to 3,000 during the year.

Old Age Assistance

During 1942 the Old Age case-load has been reduced from 1,122 to 977 as of January 1, 1943. This reduction, in many cases, is due to the fact that Quincy is a defense area and children, employed in war-work with increased earning power, are now in position to care partially or wholly for their aged parents.

On May 1st of the past year, Chapter 729, Acts of 1941, became effective, setting up a State-wide budgetary system, against which the needs of every individual receiving Old Age Assistance must be measured. This called for an intensive review of all active Old Age cases, to determine the amount necessary for each individual case. Applicants living alone without resources, must receive a minimum of $40.00 per month. Couples without resources have also received an increase, the minimum being $65.00 per month.

The State Department has also clarified the treatment accorded all mental cases discharged "on visit" to their homes, allowing the Old Age Department to aid these cases at once, instead of the customary waiting period of one year.

Another ruling promulgated by the State Department deals with the confidential nature of all information in the Old Age Assistasce files, and penalizes the divulging of any information except to those agencies specified by law.

Aid to Dependent Children

There were 132 active A. D. C. cases on January 1, 1942. The State Department submitted a revised budget in February of 1942. This went partly into effect in May and June. In October, we were forced to grant the maximum allowance in all of our cases. This made an increase of $1,000 per month for the total expense. The State Department of Public Welfare, on January 12, 1943, again suggested that we increase the A. D. C. amounts, and this will represent about $1,200 more per month. This is due to the increase of about 15% in the cost of living.

In November of 1942, the Fore River and Hingham Shipyards lowered the age requirements for boys to enter their apprenticeship division. For this reason, the case load was lowered. The cases where the military service had inducted men in March of 1942, and where the United States Army allotments were insufficient, were felt during the year, but not to any great extent. If the 18 year old sons who are now fully supporting the family are drafted shortly, we can anticipate their cases to be reopened.

We again wish to express our appreciation of the continued cooperation manifested during the past year by the various departments and organizations throughout the community.

For the details of expenditures, reference is made to report of the Auditor or Accounts.

Respectfully submitted,

ANTHONY J. VENNA,
Commissioner of Public Welfare.

Assistance rendered to persons on disabled crafts	57
Launchings attended	12
Fires discovered	0
Complaints investigated	6
Drownings	1

CONCLUSIONS

Death entered the ranks of the Department during the year with the loss of Patrolman Jerome P. Connelly. Officer Connelly covered the Squantum day route. He was stricken with sickness and died at the Quincy Hospital on December 10, 1942. Patrolman Connelly was a very good and faithful officer and his death was an extreme loss to the Department.

Retired Lieutenant Jeremiah Hinchon died April 4, 1942, also Retired Patrolman Michael Donovan died on April 14, 1942.

During the latter part of the year, November 14, 1942, Acting Captain William Ferrazzi was appointed Captain.

Patrolmen Joseph F. Hughes, Charles D. Ferrazzi and Joseph P. Flaherty were appointed Sergeants on January 29, 1942. Patrolman John E. Wuerth was appointed Sergeant on June 1, 1942. Patrolman Frank W. Vallier was appointed Acting Sergeant on June 4, 1942.

Ralph Hatfield and Leighton P. Rogers were appointed as regular patrolmen on July 7, 1942.

Sergeant Charles O. Hinchon was appointed Lieutenant on May 15, 1942.

Ralph T. Moreau and Frederick J. DeCoste were appointed as Military Substitutes on August 6, 1942.

The following officers were appointed as Reserve Men on November 10, 1942: Joseph W. Nichol, Walter W. Berrini, James W. Fay, William W. Muir, Francis J. McNamara and John Malvesti.

I recommend 15 men to be added to the Department by reason of the increased amount of traffic due to the Fore River Shipbuilding Company war contracts, as well as the new shipyard at Hingham which calls for extra officers on traffic duty, both on cycle as well as on foot. To persons not familiar with Police Department duties, there is little chance for them to pass fair judgment as to the justification of our claim for additional officers. I can only urge the necessity of the men, believing that the last half detail should be of the same numerical strength as the first half.

I believe that the life of any automobile in the Police Department used continually as Radio Cars is one year and recommend the replacement of eight autos used in that line of work.

In conclusion I wish to thank Mayor Ross, the City Council, the heads of the various City Departments for their assistance given me. I am also grateful to the District Attorney and the members of his staff, to the Justices of the Court, the Probation Officer and members of his staff, to the Clerk of the Court and his office staff for their consideration and advice.

To all members of the Department who have worked to reach and maintain a high standard of efficiency, I am sincerely thankful and to assure my appreciation that our best efforts to merit their confidence in the future will be given.

Respectfully submitted,

JOHN J. AVERY,
Chief of Police.

REPORT OF FIRE DEPARTMENT

January 19, 1943.

HON. CHARLES A. ROSS, *Mayor*
City Hall
Quincy, Massachusetts

Dear Sir:

I respectfully submit the report of the Quincy Fire Department for the year ending December 31st, 1942.

The report contains the personnel, apparatus, list of alarms, the value of property at risk, the insurance carried, the insurance paid on fire losses, as near as possible, recommendations for the ensuing year and other pertinent information that may be of interest.

Personnel

The personnel of the department consists of 127 men who rank as follows: Chief of Department, three Deputy Chiefs, eleven Captains, ten Lieutenants, a Mechanic and 101 Privates.

IN MEMORIAM

To the faithful member of the department who answered his last call, but whose loyalty and faithfulness in the performance of his duties will remain foremost in the annals of the Quincy Fire Department.

Private Robert Mullaney

Born April 9, 1894 Died September 13, 1942

After years of excellent service given the department and the City Private Timothy Morrison was retired for disability.

The following promotions were made to fill temporary vacancies caused by members of the department entering the armed forces:

To Deputy Chief: Captain Thomas Gorman
To Captain: Lieutenant John E. Byron
To Lieutenant: Private John W. Tobin

The following members of the department have entered the armed forces of our country: Deputy Chief Peter J. Creedon, who was commissioned a Lieutenant in the U. S. N. R. and Privates Edward Columbus, James MacDonald, Thomas Colligan, Emeric Rogers, Lawrence Hanrahan, Thomas O'Connor, James O'Brien and Alfred Joly.

On January 20, 1942, the new Quincy Point Station was placed in the service of the City.

On February 2, the City Council adopted the 70 hour law, recently passed by the State Legislature and it was placed in operation on March 2; 15 new men were added to the department to make it operable.

On March 2, Ladder 3 was placed out of service because the Council had added ony 15 instead of 18 men to the department.

On September 23, the Council voted the department a Mechanic and on December 28th, Private William Novelli, a member of the department, was appointed Mechanic on a six months' probationary period.

The Council voted to erect a new station at Sqauntum and the contract was placed and work begun on its construction.

2 new pumpers, 1,000 gallon capacity, were purchased by the City with the approval of the WPB, for delivery as soon as possible. They will replace Engines 1 and 4, both of which are 18 years old.

8, 500 gallon trailer pumps were purchased from Maxim Co. and have been placed in the different stations for use by the Auxiliary Department in the event of any emergency caused by War conditions. Boots, helmets and fire coats were bought and issued to the members of the Auxiliary by the Quincy Defense Council.

Valuation, Insurance and Losses

Value of property involved	$1,572,794.00
Insurance of same	1,559,149.00
Loss insured and uninsured	148,592.37
Insurance loss	133,567.81
Total fire loss for 1941	$402,009.77
Total fire loss for 1942	148,592.37
Decrease in fire loss	$253,417.40

Recommendations

1. That a new station be erected at Houghs Neck to replace the present frame structure.

2. That a 65 Junior Aerial and a 1,000 gallon pumper be purchased to replace Engine 2 and Ladder 2 respectively, both of which are more than 15 years old.

3. That 7 new men be added to the department to replace the men assigned as fire alarm operators and to place Ladder No. 3 in service.

In conclusion I wish to express my sincere thanks to His Honor, the Mayor, the City Council, the various City Departments and the officers and members of the Fire Department.

Respectfuly submitted,

WILLIAM J. SANDS,
Chief of Department.

FIRE AND POLICE SIGNAL DEPARTMENT REPORT

January 1, 1943.

HONORABLE CHARLES A. ROSS
Mayor, City of Quincy
Quincy, Massachusetts

My dear Mayor:

I respectfully submit the annual report of the Fire and Police Signal Department for the year ending December 31, 1942.

All Fire Alarm, Police Signal, Traffic and Air Raid Communications were efficiently operated and maintained during the past twelve months.

Great difficulty was experienced in obtaining supplies and material and numerous improvisations were resorted to in order to maintain all services.

Additions to all systems were made and changes on pole constructions were more numerous than any year since the last war.

Due to the present emergency details of work accomplished must of necessity be confidential.

Very truly yours,

THOMAS J. SMITH,
Supt.

REPORT OF INSPECTOR OF BUILDINGS

January 2, 1943.

HONORABLE CHARLES A. ROSS,
Mayor of the City of Quincy

Dear Sir:

I herewith submit the thirty-sixth annual report of the Building Department for the year ending December 31, 1942.

		$1,880.50

There were 311 family units provided for the year nineteen hundred and forty-two, 275 through new construction and 36 through alterations.

The major projects during the year were Bethlehem Steel Company, Fore River Plant, Way Foreman's Office, $25,000.00; Mold Storage Building, $25,000.00; Main Office Addition, $40,000.00; Department of Photography Building, $50,000.00; Paint Shop Extension, $28,000.00; Office over Toilet Building, $27,000.00; Apprentice School Addition, $27,000.00; Employment Building Annex, $37,000.00 and City of Quincy, Squantum Fire Station, $18,800.00 and Temporary Hospital Building, $43,000.00.

In December all premises where liquor is dispensed were inspected with the Department of Public Safety and the Fire Prevention Bureau. Orders were issued to do miscellaneous work in the interest of safety. Such inspections are to be permanent records in this department.

During the month of April all fire appliances were tested as required in Section 48, Chapter 143 of the General Laws.

Respectfully submitted,

ALRICK A. WEIDMAN,
Inspector of Buildings.

REPORT OF INSPECTOR OF WIRES

January 4, 1943.

HONORABLE CHARLES A. ROSS
Mayor of Quincy
Quincy, Massachusetts

Dear Sir:

I respectfully submit my annual report as Inspector of Wires for the year ending December 31, 1942.

Inspection in Buildings

The following specified schedule of electrical inspections made of lights and other appliances installed.

Number of permits issued in 1942	1,363
Fees received for the above	$1,846.36
Defects noted on installations	171
Number of unfinished installations	53
Number of old installations reinspected	213
Reinspections made after fires	64
Total inspections made during year	3,592
Permits issued to Quincy Electric Light and Power Company to install service and electrical appliances	287
Refrigerators wired for, permanent wiring	10
Electric ranges wired for, permanent wiring	56
Number of lights wired for, permanent wiring	8,510
Oil burners wired for, permanent wiring	113
Signs wired for, permanent wiring	77
Motors wired for, permanent wiring	778
Total horse power of motors installed	1,083

Respectfully submitted,

JAMES M. CANTFILL,
Sealer of Weights and Measures.

REPORT OF ENGINEERING DEPARTMENT

January 2, 1943.

HONORABLE CHARLES A. ROSS
Mayor of the City of Quincy

Dear Sir:

I am herewith respectfully submitting the forty-third annual report of the Engineering Department for the year ending December 31, 1942.

The various requests pertaining to engineering from the different departments of the City were duly considered and the proper action taken. The meetings of the City Council and Finance were attended and any desired information supplied. The usual functions connected with the City Clerk's office and the City Solicitor's office were executed promptly as well as the routine work in the Cemetery, Park and all other departments.

Tax Collector

A total of 785 requests from attorneys and individuals asking for information regarding betterments and liens were referred to this office by the Tax Collector; also 4,291 descriptions to be used in the advertising of Tax Sales.

Building Department

Requests from 226 applicants for permits to build or move buildings were referred to this department. Each site was visited by the City Engineer and the grade established.

Assessors

During the year it is estimated that there were approximately 2,260 transfers of property as against 2,616 in 1941. The usual number of assessors' tracings were made during the year to replace those that were worn out, and several plans to be used for tax appeal cases were made upon request.

Sewers and Drains

From the detailed schedules attached you will note that there were 1.34 miles of sewers completed as well as 1.18 miles of drains.

Street Construction

Conditions brought about by the war have seriously curtailed street construction so that but two streets, First and Armory, were the only ones given a permanent surface during the year.

The City Council voted to accept 12 streets for a total of 1.43 miles. Four widenings were also voted.

The U. S. Government after considering the seriousness of traffic conditions around the Fore River plant appropriated the necessary funds to construct the entire length of East Howard Street, the extension of Des Moines Road from Chubbuck Street to the Southern Artery and South Street from Washington Street to Cleverly Court. The minimum width will be 50 feet and the greater portion of East Howard Street will be 60 feet. These streets will be of permanent construction, including curbing, sidewalks and other necessary work pertaining thereto.

The total cost of the construction amounting to over $200,000 will be entirely borne by the U. S. Government. It was necessary for the City to make the layouts and assume all the costs of property damage.

The work was advertised the latter part of the year and construction has been started under the direction of the Department of Public Works, Commonwealth of Massachusetts. It should be completed by June 1, 1943. It would be impossible to exaggerate the benefits that these new arteries will afford to traffic conditions in the Fore River section.

Sidewalks

No granolithic sidewalks were built and but one amiesite sidewalk.

* * * * * *

Details of lengths, locations and types of the various constructions will be found in the accompanying schedules.

In conclusion, I wish to thank His Honor the Mayor, members of the City Council, Department Heads and the personnel of this department for their cooperation and support.

Very truly yours,

GERHARD F. SCHAFER,
City Engineer.

REPORT OF WORKS PROGRESS ADMINISTRATION

January 2, 1943

MR. GERHARD F. SCHAFER, *Sponsor's Agent*
Works Progress Administration
Quincy, Massachusetts

Dear Sir:

The Works Progress Administration activities for the year 1942 were carried on with a reduced personnel due to better private employment conditions brought about by the demands of national defense.

W. P. A. Personnel January, 1942.....264
W. P. A. Personnel January, 1943.....123
W. P. A. Workers Earnings, 1942.....$162,420.00

PROJECTS

Civilian Defense—"Manual"

	Location
Removal Car Rails	Sagamore Street, Atlantic
City Hospital	Hunting & Sears Buildings
Trainee School	Quincy Trade School

The removal of obsolete car rails along Squantum, Billings and Sagamore Streets and Newbury Avenue is a National Defense Project and the only one maintaining a 48-hour per week schedule.

The enclosure and facilities on the last porch of the Hunting Building at the Quincy City Hospital have been completed. This with the other two porches which we have constructed makes it possible for them to add 60 beds to their equipment and gives them 4000 feet of additional valuable space that previously could only be used to advantage in the summer months. A formula room on the westerly end of the Hunting Building is also in the process of construction and will probably be completed in February, 1943.

The Sears Building which has become the property of the Quincy City Hospital is being renovated by the W. P. A. The obsolete stucco outside covering is to be completely removed and replaced by a new shingle application. Other necessary repairs will also be made on the inside of the building. When finished it should be a valuable addition to the hospital.

Our Trainee School for Defense Industry is operating at the Quincy Trade School. Until recently this service has been a fine effort to help the defense program. Formerly, young or middle aged trainees were assigned to the school, but at present our personel is definitely too old to embrace the trainee activity. Our average age bracket is in the vicinity of 62 years and it is obvious that as a general rule persons of this age cannot successfuly absorb the trainee course.

Civilian Defense—"Clerical"

Homes Registration	Chamber of Commerce Roms
Hospital Service	Quincy Hospital
Rationing Board	50 Saville Row
Police Records	Police Station
Defense Recreation	Newbury Ave., Community Bldg.
Library Picture Index	Library
Library Book Repair	Library
Map Indexes	City Hall—Water Works, Penn St.
Finger Prints	Police Station
Administration Office	67 Saville Row
Federal Music	State Wide

Our Homes Registration Department has done a very fine job of necessary defense work in making it possible for the defense workers to learn of the available living accommodations in this area.

The Hospital Service is supplying service to supplement the regular employed help at the Quincy City Hospital.

The Civilian Defense Project is assisting the local Rationing Board, Civilian Defense Administration Office, Library and Police Department.

Miscellaneous

Federal Surplus Commodities	166 Washington Street, Rear
National Youth Administration	

Other activities allied to the W. P. A. program included assisting in the distribution of Federal Food Stamps totaling $77,371.00 divided as follows: $51,961.00 orange and $25,410.00 blue. We also assisted in the distribution of milk and clothing to the amount of $23,000.00.

The earnings for the year by those connected with the National Youth Administration amounted to $31,500. Most of these young people were given machine shop training, and 270 of them, mostly girls, were qualified, after training, for some of the defense industries in Quincy.

Summary

This present fiscal year ending in June, 1943, will probably see the finale of the W. P. A. relief program in Massachusetts. Since its inception, this program of work relief has done much to leave the city of Quincy many permanent improvements, such as playgrounds, tennis courts, skating rinks, recreation parks, granite and other types of retaining walls, a beautiful Municipal Stadium and miles of sidewalks, curbstones and streets. New playground buildings have been built as well as six very fine ball parks of which any municipality might be proud. Twenty-four school buildings have been renovated and nearly every public building in the city directly improved. Flood control projects not visible to the average citizen, such as extensions of our drainage and sewerage systems, were carried out; also the improvement to Town Brook, Sachem Brook and Furnace Brook. We may also mention as part of our efforts the beautification of Faxon Park and the planting of thousands of new trees throughout the city after the hurricane of 1938.

Our workers have done much for the military development of Squantum Naval Air Base, the Hingham Ammunition Depot and the Weymouth Lighter-than-Air Base. Particularly, the work done during the last nine years at Squantum has helped in no small degree to make the air base there the important factor that it now is in the war effort.

The above were some of the many manual projects which could not have been financed by the local government and which brought many lasting improvements to our city aside from the material relief to our heavily burdened Welfare Department.

Many White Collar Projects have also helped the City of Quincy such as planned recreation, court, library, assessors, cemetery, veterans and police records, surveys, etc. In this manner many people were given employment who could not have been taken care of on our manual projects. Thousands of our citizens participated in a big program of sports and hobbies sponsored by our Recreation Department, and many of our youths were helped in baseball, soccer, basket ball, football and all athletic activities.

The development of Quincy under the work relief program cannot be estimated alone by the material values which were left to the city. The real monuments are those laborers and skilled persons who were given work at a time when their morale as well as their financial resources were at the lowest ebb and thus were able to take their places once more in their own individual fields with courage and assurance as the opportunities came to them. I believe everyone will agree that this phase of our work far outweighs any possible material advantage which may have accrued to our city.

Between 1934 and 1941 the Federal Government through E. R. A. and W. P. A. channels has spent over $1,000,000 a year in Quincy. A decided employment trend started upwards during the latter year, which of course greatly reduced the number of persons on our payroll. The Federal Government has been very cooperative and liberal with Quincy in its allotment of federal funds, and the aims of the program to help the community carry on in its hour of need has been accomplished insofar as mass unemployment is concerned. We have much to show for the federal expenditure of funds in worthwhile projects completed in our city. The problem now will be how to employ those persons 60 years of age and over who wish to work and should be allowed to continue to earn their own living when the W. P. A. program is terminated.

I wish to thank you as Sponsor's Agent and all the department heads for the splendid cooperation which has been given to us during this time. That assistance and encouragement have been large factors in enabling us to make the program a success. I wish also to thank Mr. Rudolph A. Lofgren, Assistant General Project Supervisor, for his loyalty and wholehearted efforts in carrying on the work.

Very truly yours,

PATRICK J. DUGGAN,
W. P. A. General Project Supervisor
Quincy, Massachusetts

REPORT OF THE CITY PLANNING BOARD

January 2, 1943

HONORABLE CHARLES A. ROSS
Mayor of the City of Quincy

Dear Sir:

We are herewith submitting the twenty-eighth annual report of the City Planning Board.

Mr. Henry H. Pierce resigned from the Board and Mr. J. Everett Robbie was appointed to fill the vacancy.

Many discussions of the various phases of zoning for our city were held at the meetings by the Board during the year to conform with the resolve passed by the City Council, namely,

> That the City Council is in favor of an adequate zoning ordinance for our city and requests the Planning Board to initiate at once the necessary procedure to establish such an ordinance.

Various meetings were held with members of the City Council and interested persons so that the Board might have the opinion of others in order to submit an ordinance that would be for the best interests of all concerned.

The City Engineer made surveys of each of the wards and presented plans so that each section could be discussed as an individual problem.

So much time was entailed in the study and drawing up of the necessary provisions that it was impossible for the Board to recommend to the City Council a proper ordinance in time for them to submit it to the voters in the December election if they had so wished. It is the hope and desire of the Board to submit to the City Council in the future an ordinance that will overcome the obstacles that have defeated the zoning ordinances in the past.

It is gratifying to note that another of the Board's recommendations has become a realty, namely, the widening of East Howard Street and the extension of Des Moines Road.

We wish to take this opportunity to express our appreciation to all those who have given of their time and counsel in order that the Planning Board might continue to be of real benefit to the City.

Respectfully submitted,

WALTER A. SCHMITZ, Chairman
DELCEVARE KING
HARRY H. KERR
J. EVERETT ROBBIE
FRED E. AHEARN

Gerhard F. Schafer, Clerk

REPORT OF THE BOARD OF SURVEY

January 2, 1943

HONORABLE CHARLES A. ROSS
Mayor of the City of Quincy

Dear Sir:

We herewith submit the twenty-seventh annual report of the Board of Survey.

During the year hearings were held on the following petitions:

The Estate of Augusta E. Nickerson for the laying out of an extension of Flagg Street (Wollaston).

Two petitions from the Oakvale Realty Trust; one for approval of certain streets on the northeasterly side of Quincy Avenue near the Southern Artery, and the other on the westerly side of Quincy Avenue at the junction of Water Street.

Tentative approval, subject to the proper execution of the necessary work required by the Board, was granted to all except the one on the easterly side of Quincy Avenue.

After learning the costs of the improvement of the layout on the northeasterly side of Quincy Ave. and the conditions brought about by the war, the Oakvale Realty Trust decided to temporarily discontinue the development of that property.

One-family houses were constructed on the 49 lots on the other property of the Oakvale Realty Trust.

After receiving tentative approval for the extension of Flagg Street (Wollaston), the petitioner decided not to improve the property at the present time.

A petition was received and a hearing held on changing the name of Montilio Street to St. Moritz Road. This petition was denied by the Board.

Respectfully submitted,
LOUIS F. LANGELIER, Chairman
JOHN J. MANNING
SAM WOOD

Gerhard F. Schafer, Clerk

REPORT OF THE HIGHWAY DIVISION

HONORABLE CHARLES A. ROSS,
Mayor of City of Quincy
Massachusetts

Dear Sir:

The annual report of the Highway Department for the year ending December 31, 1942, is herewith respectfully submitted.

JAMES P. DONOVAN
Commissioner of Public Works.

Since the Government has stressed conservation in the matter of printing I refer you to the City Auditor's report for all expenditures and to the report of the City Engineer for locations and types of construction. Our activities include the Maintenance of Highways, Care of Municipal Buildings, Stable and Garage and the Street Lighting Schedule, the Forestry work and the Sanitary Department's maintenance and New Construction of Streets and Buildings.

Municipal Buildings

The care of City Hall includes all expenses of the offices in the annex on Saville Row.

The Public Buildings are the Police and Fire Stations, Welfare, Dispensary and the Community Building Atlantic.

In addition to the maintenance the Council made an appropriation for a new boiler at the Ward 6 Fire Station and the conversion for oil burning units to coal burning equipment in the Central Fire, West Quincy and Quincy Point stations.

The flower beds at City Hall were unusually attractive this year and the favorable comments were a source of great pride to the men in the Forestry Division.

Gypsy Moth and Forestry

This department is required by law to care for and spray trees and destroy nests of Gypsy and Browntail Moths in the City. This work has been done as usual. Six tons of Arsenate of Lead being used in the 300,000 gallons of water for spraying the shade trees. Approximately 400 new trees have been planted along our highways, 200 of these trees coming from the City Nursery on Penn Street. Trees about the City have been trimmed or removed when necessary. The trees trimmed for the Quincy Electric Light & Power Company and New England Telephone and Telegraph Company have been done at the company's expense.

The department has maintained about seventy-eight flower beds and street parks together with the traffic circle at the Fore River Bridge. All the plants have been raised at the City Greenhouse. The sum total for this work was expended from the Highway Miscellaneous Activities Street Parks account.

This fall we have planted at the Penn Street Nursery over 10,000 pansy plants for planting in the flower beds in the spring of 1943. Also 15,000 plants in the greenhouses.

The Massachusetts Horticultural Society has awarded the City of Quincy a Blue Ribbon for the most beautifully kept traffic circle in the country.

Stable and Garage

The only additional expense in the maintenance of the plant has been the repairs of the main doors and the heater repairs. We have a special appropriation for the conversion of the heater from an oil plant to coal burning equipment.

We usually board horses in the winter so that we may use them on the sidewalk plows, but this year owing to the shortage of both men and horses we have not been able to send the sidewalk plows on the usual routes.

Sanitary Department

This department is responsible for the collection of rubbish and garbage, the scavenger work and the care of dumps. The garbage is sold to various farmers and nets the City an income as shown in the report of the City Treasurer. This report also shows the Deposits and Collections for Scavenger Work. We are now using the Quarry off Quarry Street as a dump. The Penn Street dump has been filled and levelled and due to the many fires which occurred there it was a source of great annoyance and expense. The City does not own a bulldozer and the rental of such a piece of equipment varies the cost of the maintenance of the dumps an appreciable degree.

Street Lighting

The Boulevard along the waterfront is maintained by the Metropolitan Park Division, consequently the lighting is not included in our schedule. Shades were put on all the street lamps so that there would be no direct lighting.

We tried to light the business sections adequately, but owing to dim out regulations and a depleted appropriation we were unable to meet all demands.

Highway

General Maintenance includes Street Cleaning, Tar Patching, Snow Removal, Drains and Tidegates, Equipment, Tools and Lanterns, Sidewalks, Brooks, Bridges, Fences, Signs, and Street Markings, Parking Area and Flower Beds.

In connection with the Tar Patching we collect ashes from Schools, Houses, Banks, City Hall and the Hospital, which are used for temporary filling.

Our Miscellaneous account takes care of emergencies and other miscellaneous items. This year money was spent for Defense, a Sea-wall and the Squantum Causeway. The Public Landing was housed and repaired during the winter months. We also built steps when beaches could not be reached from the Highways.

Our Department is always ready to help toward the success of any public undertakings, such as the President's Ball or the Community Fund Drive. The Schools giving Pet Stock showing always call on us when they need extra equipment.

The Department credits that accrue to the Department are for the distribution of gasoline to the City Departments, the Tar Patching of Trenches which is charged to the Sewer and Water Departments and the charges for the use of Equipment, rollers, compressors, etc. The credits scheduled in the Treasurer's report and which do not accrue to the benefit of the department are for work done for the Utility Companies when it is necessary to repair our streets, for the sale of Junk and when Contractors use our City Equipment.

In addition to the general upkeep of the Department we built and rebuilt thirty streets, the locations and types of construction are shown in the City Engineer's report, which also lists the streets where granite curbing was installed.

New Buildings

The Hospital Superstructure is being built under Docket Mass. 19-150 which carries a Government grant of $50,000. The concrete foundation was installed under a separate contract and the cost paid by the City.

The Temporary Structure is a one story, forty-five bed unit with ward equipment as follows: Charter desk, and room, Utility room, Diet kitchen, Hopper room, General Ward Equipment, Medical and Surgical Supplies, Reference Desks and Linens.

This addition is made necessary by the increase in population and general war conditions.

The Squantum Fire Station which is being built on Huckins Avenue is of Colonial Design and constructed of wood with cement foundation.

The Apparatus room with its brick walls houses the Fire Equipment necessary for the protection of the property in this section.

A Utility room and stair hall are located in the basement and with a background of plastered walls, knotty pine woodwork and an attractive fireplace a long felt need has been produced for the use of the Community.

ANNUAL REPORT OF THE SEWER DIVISION OF THE PUBLIC WORKS DEPARTMENT

January 2, 1943

MR. EZEKIAL C. SARGENT,
Commissioner of Public Works,
Quincy, Massachusetts.

Dear Sir:

I respectfully submit the report of the Sewer Division of the Public Works Department for the year ending December 31, 1942:

For financial statement, see Auditor's report.

Particular Sewers

Two hundred seventy-eight connections were made to the common sewer located by wards as follows:

Ward I	56	Ward IV	42
Ward II	37	Ward V	38
Ward III	33	Ward VI	70
		Milton	2

Total number of feet laid	14,819.10
Total cost	$15,319.92
Average cost per connection	$55.11
Average cost per foot	$1.034
Average length per connection	53.3 feet

Classification:

Single Houses	204	Business Buildings	10
Two-family Houses	26	Barracks	5
Three-family Houses	1	Fire Station	1
Multi-unit Dwellings	28	Animal Hospital	1

Construction

All sewer construction work done by this division for the year is shown in the tabular form included with this report.

Respectfully submitted.

WALTER S. McKENZIE,
General Foreman, Sewer Division

There were 85 yachts stored in the boat yards on Town River.

Made sixteen trips with power boat going to the aid of boats in distress, aground and capsized.

Picked up seven row boats, all claimed.

Reported to Coast Guard various beacons extinguished and buoys out of position.

Called Coast Guard several times through the winter of boats in trouble.

Respectfully submitted,

JAMES A. M. NASH,
Harbor Master

REPORT OF CITY SOLICITOR

January 4, 1943

HON. CHARLES A. ROSS,
Mayor of Quincy
Quincy, Massachusetts

Dear Sir:

During the past year the City Solicitor has carried on the work of the Law Department of the city in accordance with the requirements of the statutes in relation thereto.

Respectfully submitted,

JOHN D. SMITH,
City Solicitor

THE DEPARTMENT OF HISTORICAL PLACES

January 18, 1943

HON. CHARLES A. ROSS,
Mayor,
City of Quincy,
Massachusetts

Dear Sir:

The Board of Managers of the Department of Historical Places herewith submits its third annual report.

During the past year the stone wall around the premises, which was in a deplorable condition, was reset—the interior of the John Quincy Adams Birthplace, so far as funds permitted, received interior painting and one room was repapered, all necessary work to improve the premises and preserve the House.

As set forth in our last report, in the covenant of the deed of gift to the City, it is provided:

> "in general, to do all things which may be necessary or proper to preserve said premises and buildings."

It is the purpose of your Board to do just this and no more.

Last year we had two notable events. On July 4th with appropriate ceremonies two United Nations Victory flags were raised, one directly under the Stars and Stripes on the permanent pole adjoining the John Adams House, the other on a new pole adjoining the John Quincy Adams House. Flags and pole were gifts of Mr. Delcevare King, which your Board gratefully acknowledges. These flags are flown day and night, rain or shine.

On September 10th, Past Commanders of the Ancient and Honorable Artillery Company (the oldest military organization in the United States) and guests attended a luncheon at the birthplace of John Adams, sponsored by Captain Fred K. Rogers, the first Quincy Commander of the Company. This also was a memorable occasion and the first of its kind ever held in the John Adams House.

The Board takes this occasion to acknowledge the support and cooperation given us by the Mayor and members of the City Council.

Respectfully submitted,

MAURICE SPILLANE, Chairman
HENRY ADAMS
GRACE P. BONSALL, Secretary
LAWRENCE W. LYONS
HARRIET B. PIERCE

REPORT OF CITY CLERK

To His Honor, the Mayor of the City of Quincy:

I have the honor to submit the fifty-fourth annual report of the department, being for the year ending December 31, 1942.

Receipts

Licenses:	
Theatre — Sunday	$2,784.00
Permits:	
Marriages	2,694.00
Miscellaneous:	
Recording	1,594.55
All others	1,419.50
	$8,492.05

The above sum has been paid to the City Treasurer.

Number of marriages recorded in 1942	1,427
Number of marriage intentions issued in 1942	1,350
Number of births recorded in 1942	2,025
Number of deaths recorded in 1942	956

The number of dogs licensed in 1942 was 2,182 males; 886 spayed; 261 females; 3 Kennels and 8 Transfers, for which the sum of $7,518.00 was collected. The sum of $6,849.60 was paid to the City Treasurer for the use of the County and the sum of $668.40 was paid to the City Treasurer for the use of the City. The sum of $4,071.00 was collected for hunter's licenses. The fees amounting to $482.25 were paid to the City Treasurer and the balance to the Commonwealth.

Annexed are the births, marriages and deaths recorded in Quincy in 1942 and the election returns.

HATTIEMAY THOMAS,
City Clerk.

REPORT OF THE PARK DEPARTMENT

QUINCY, MASSACHUSETTS

March 1, 1943

To the Honorable Mayor, Charles A. Ross

Dear Sir:—

An account of the activities and accomplishments of the Quincy Park Department is herewith presented constituting the fifty-fourth annual report since its inception.

Due to the war, the Park Department found that they would be called upon for many services to help build the morale of old and young alike.

Meetings were held with various citizen groups and representatives of the U. S. O. A plan of extensive recreation was carried out during the fall, winter and summer months.

In the past, it has been the custom to give a detailed report covering every phase of Park and Recreation activities with a detailed account of developments and expenditures.

We herewith present our report and recommendations in condensed form for City Records. There will be on file at the Park Office, a full detailed report which will be available to your Honor, the City Council and the citizens of Quincy.

With respect to finances, it is gratifying to report that the budget was strictly adhered to and all plans of expenditures carried out with satisfying results and excellent progress made.

In closing the final report of this Park Board, we wish for you and the new Park Board, a very successful administration.

WILLIAM M. TRUSSELLE,
Chairman

IMPROVEMENTS AND MAINTENANCE

During the past year, all Baseball Fields were put in condition during the spring months and maintained for the season. Softball fields and Football gridirons each received the same attention. The Maintenance Department under Foreman Harry Boyd, and a skilled personnel, covered every phase of our work which included grading, seeding, carpentry, landscaping, masonry, construction and forestry.

Their fine work brought many testimonials of praise from those who use the Park system. The Board takes this opportunity to thank them for a job well done.

Several of the so-called skin-diamond fields were treated with oil to lay the dust and proved to be a good investment.

PERMITS AND SERVICES

A full time service was maintained at the Park Board office for all who wished to use the facilities of the Park System. This was taken care of by Mrs. Gertrude McIntyre, who rendered courteous and efficient service to all who applied, in addition to her duties as typist, keeping records of all Park activities, reports, publicity and miscellaneous duties at the office.

MANAGER AND DIRECTOR

Mr. William J. Spargo, Manager and Director of Parks and Playgrounds, proved of invaluable service to the Park Board. In his years of service, he has gathered a wealth of experience which he has given to the City of Quincy, in planning Programs, laying out Parks and Plots, and keeping abreast of the times in making improvements which reacted in many ways to the users of our Park System.

The Board of Park Commissioners take this opportunity to thank him for his cooperation.

SKATING RINKS

Skating rinks and ponds were maintained and serviced at Manet Lake, Sailor's Home Pond, Stoney Brae, O'Neil Field, Wendell Moses Field, Munroe and Bishop Field.

FOOTBALL FIELDS

North Stadium, Faxon Field, O'Rourke Field, Kincaide Field, Upper Merrymount, Municipal Stadium, O'Neil Field, Munroe, LeBrecque, and Montclair, all fields equipped with goal posts and lined off for games. Steel posts at Municipal Stadium.

TENNIS COURTS

Tennis Courts all lined off and equipped with nets.

SOFTBALL FIELDS

Faxon Park, Faxon Field, Welcome Young, Munroe, Pageant Field, two diamonds, and Upper Merrymount, maintained and lined off for games.

BOWLING ON THE GREEN

Regular Custodian assigned and continuous service all through the season. Greens are in constant use.

HORSESHOE PITCHING

Interest in this popular barnyard sport was keen this year, so much so, that the Board encouraged it as one of the regular playground features. Competition was conducted on an inter-playground scale, with finals played at the end of the season.

RECREATION

During the period covered by this report, it has become increasingly evident that there is a widespread demand for year-round indoor and outdoor recreation. This is true not only in Quincy, but from what the Board can gather, it is general throughout the United States. In view of this situation, the larger cities must prepare to meet the demand, when W. P. A. Recreation Projects are eventually dropped by the Government, as an mergency measure.

A well planned system of recreation is essential to the well-being of every community. It may be purely passive, such as natural scenery, or it may include various degrees of activity, to the most intensive physical exercise, such as tennis. All forms are necessary to service varying public demands.

With many of our male citizens going into defense work and the armed forces, the Board was faced with the selection of a qualified supervisor for our ambitious program for the playgrounds. Through the efforts of Mr. Wiiliam J. Spargo, our Manager and Director, we contacted State Civil Service and obtained permission to engage Mr. William Bowyer, a member of our Junior High School Faculty, to take over and carry out the program planned.

The appointing of Mr. Bowyer was an excellent choice. He was most cooperative and in a few meetings wih his staff of male and female instructors, he put over the finest program of activities in the term of this Park Board. Under his leadership, the personnel gave everything they had and the result was an outstanding Field Day at the close of the Playground season.

Mr. Bowyer compiled a scrap book of all activities during the season, it will be on file at the Park Board office for all to see on application.

The following is the report of the Supervisor of Playgrounds:

PLAYGROUND REPORT

1942

If there is one opposite to idleness, it is play. Much confusion can be avoided if we remember that play has its primary application in childhood. Exercise as applied in the child's life is a mere by-product of play. This is one of the main drives of life. When we want strenuous exertion in any line of endeavor, it is essential to utilize the play desire. In later life, there are certain social relationships and standards of behavior which are best encouraged by activities on the playgrounds. Physical education and playground activities are primarily the same, particularly when it comes to play. The program of activities approaches the objectives of education and life, not alone by big muscle exercise, or in any physical standards, but by play.

Leadership is of great importance to the development of good "Social Habits." Leadership is the most important core of any

playground program, so at this time I wish to express my thanks to all the members of the Park Board and Mr. Spargo, for the fine group of Instructors and special teachers. They directed the choice of activities for the children, for intrinsic rather than extrinsic values. Participation in activities being promoted rather than being the spectator. They planned with the children rather than for the children. With the joy of play activities rather than mere excitement, and appealing always to their interest in activities rather than for prize awards.

For the benefit of the playground Instructors, the Park Board presented the "Quincy Playground Institute," a well rounded instructional program which I am sure helped materially in the success of our playgrounds this year.

We are indebted to the Community Recreational Service of Boston for their able assistance through Mr. Siebolt H. Frieswyck, Miss Helen M. Duncey and Mrs. Clara Edwards. The Misses Harriet Dively of the National Staff of Camp Fire Girls and Elizabeth Richardson Marston of Quincy City Hospital. Messrs. Ben Hodgkinson, American Red Cross, William Morrison, William Sullivan, Robert Hamilton, Cecil Roberts, Mrs. Edwinna Robb and Mrs. Raymond H. Davis, of the Civilian Defense Council and R. Stanley Kendig of the U. S. O.

We offered this year, a group of specialized experts who visited the playgrounds every day. These experts remained on each playground at least one hour. This system was beneficial to both children and playground instructors. In this way, the playground instructors were able to give general supervision of the activity for the rest of the week. Along with special activities offered by the playground instructors we were able to present the following program and activities.

Athletics:

The athletic events were covered from simple team games to the more specialized forms.

Small children's activities

Special attention was given to simple ring games, singing games, sandbox supervision, etc.

Story-Telling

Summer offers a wonderful opportunity for story-telling due to the excessive heat. Many mothers attended with their smaller children. The person to handle this activity must be a born story-teller and in Miss Katherine Zottoli and Miss Lillian Russell, these qualifications were satisfied.

Handcraft

This type of activity offers an almost unlimited range. Placing special emphasis on making things which are related to play and life in the open.

Weaving

Was handled by Mrs. Doris Ryder, covered the making of pot-holders, pocketbooks and mats of different sizes.

Handwork

Was conducted by Mrs. Catherine Healey and devoted to embroidery, afghan work, crayon work, curtain pulls, etc.

Novelties

Mr. Arthur Turner—Lanyards, Bird Houses, Airplane modeling, windmills, copper figures, aluminum trays and bowls, name shields and paper craft.

Pottery

Mr. Louis Douglas supervising, made ceramics, tiles, florals and trays, figures, bowls, nauticals, etc. This proved a very attractive activity.

Reed Work

Miss Mabel Stewart in charge. Work was done with serpentine, bowls, trays, candle-holders, hats, etc. Reed and raffia was also used for baskets, bracelets, slippers, pocketbooks and many other fine nic-nacs.

Metal Tooling

Mrs. Sarah Powers instructor. Copper tooling of juvenile nautical, animal and scenic designs. Also plastic broaches.

Other handcraft conducted by Playground Instructors as listed: Wooden name and animal pins, novelties of walnut shells, jewelry-boxes and shells. Rag dolls, macaroni and paste beads.

Folk Dancing

Mrs. Emma Harvey, leader. All forms of Country, National, Patriotic and period dancing was very ably handled.

Clubs

Various types were organized and conducted by the playground instructors. The playgrounds offered whatever assistance requested in cooperation with the Defense Council for the development of the bicycle corps.

Educational Dramatics

This activity was offered in conjunction with the story-telling. Mrs. Osborne rendered excellent help in her short stay.

Camp Craft

Selection of foods, hiking, fire-making, cooking and activities in the open. Many trips were made using our picnicing facilities within the city limits. Also trips were made to Nantasket Beach and all facilities enjoyed.

Community Music

This was encouraged on all playgrounds. Also individual playground songs were encouraged with excellent results.

Instrumental Work

This was developed in some of our playgrounds. I would like to make special mention at this time of the H. L. Kincaide orchestra. This was organized and conducted by Miss Kathryn S. Chrisom, and rendered beautiful music to the satisfaction of all at the final Field Day.

The figures for special and regular attendance was most gratifying with daily average per playground of 176. Combined average of all playgrounds 3,520, weekly average of all playgrounds 21,120, seasonal average of all playgrounds 168,960.

The figures for the special experts were per playground:— Daily 35, weekly per playground 210, season per playground 1,680. Combined daily average 750, combined weekly average 4,200, combined seasonal average 33,600.

Theme of the Final Field Day was "A Day on the Quincy Playgrounds." On Tuesday, the final for the baseball championship was conducted. On Wednesday morning, the Track and Field meet was held with two hundred and fifty boys and girls competing for top honors. This was the final and big day which opened with the Flag raising and singing of the "Star Spangled Banner." This singing was led by the H. L. Kincaide choral group.

The noon recess was devoted to the distribution of some eighteen hundred bottles of milk.

The afternoon activities were devoted to the Horseshoe contest with eighty boys of all ages competing.

At 2 P. M., time was devoted entirely to the exhibit of the handicrafts with well over five hundred pieces being exhibited. The features of this exhibit was the work basket and afghan present to his Honor Thomas S. Burgin. This afghan has been placed in the Rice Eventide Home as a permanent memory of the 1942 Playground Season. I wish to express my thanks at this time for the fine work done by the judges, "Doc" Kendall, Mrs. Edwinna Robb, Misses Betty Schultze, Dorothea Bates and Messrs. Ben Hodgkinson and W. Edgar Wyllie. Also, I would like to thank the W. P. A. for such an excellent group of special experts.

Next was the Vehicle Parade which demonstrated originality and creative ability in abundance.

The final event of the day was a vivid demonstration of playground games and Folk Dances.

The awards to the bicycle group ran into a considerable number with the playground activities awards amounting to 60 "Firsts," 18 "Seconds," and 18 "Thirds."

The final Field Day drew eleven-hundred and fifty-one children, also a very sizable group of spectators.

I wish to express my thanks to all for their wonderful cooperation in making the 1942 Playground Season the huge success that it was.

Sincerely,

WILLIAM BOWYER,
Playground Supervisor.

RECOMMENDATIONS

The Park Board had several recommendations, but owing to the United States entering into World War II, it was thought best to withhold them at this time.

PERMITS

During the year, the following number of permits was issued for various activities.

		Permits	Estimated Attendance
24	Tennis Courts	13,200	37,400
9	Baseball Fields	660	161,600
	School Baseball	385	16,500
14	Softball Fields	18,000	73,400
10	Football Fields	220	63,630
	School Football	80	71,710
4	Soccer Fields	70	3,300
1	Bowling Green	240	10,200
	Field Days and Picnics	143	151,500
	Fore River Club House	Occupied by U. S. Army	
	Total	32,998	589,240

EXPENDITURES

The financial statement of this Department may be found in the Auditor's Report.

VANDALISM

The Park Board noted a marked improvement in this annual headache, no doubt due to war conditions and the serious thinking of our younger generation. Drinking fountains on playgrounds seemed to be the chief target for the vandals. This proved to be serious, as our quota was limited. Therefore, when a bubbler was broken beyond repair, it could not be replaced.

The Board acknowledges with sincere thanks, the efforts of citizen groups who met with the Board and gave valuable assistance to help stamp out destruction of City and Park property.

CONCLUSION

We acknowledge the magnificent spirit of cooperation evidenced by His Honor, the Mayor, the City Council, the Quincy Patriot Ledger, the Police and Fire Departments, the City Engineer's Department, Public Works Department, Manager of Parks and Playgrounds, Foreman of Parks, Park workers, Supervisor of Playgrounds, W. P. A. Recreation Project, Playground Instructors, members of all leagues sponsored by the Board, referees and umpires of all leagues, and anyone who by act or deed has made the work of 1942 a pleasure. It is fitting that we should here record our appreciation and gratitude.

It has been a pleasure for this Board to serve the citizens of Quincy. Much has been accomplished and we pass on to our successors, a park system second to none. If at any time we can be of assistance, we will be ready to help.

We are proud of our city, our citizenry, and our parks, and earnestly hope that this, the 54th Annual Report, will mark another milestone in the upward path.

Respectfully submitted,

WILLIAM M. TRUSSELLE, *Chairman*
EDMUND J. SAUNDERS, *Vice-Chairman*
FRANK G. PRAY, *Secretary*
WILLIAM J. SPARGO, *Manager and Director*

REPORT OF THE TRUSTEES

To His Honor, the Mayor of the City of Quincy:

The seventy-second annual report of the Trustees of the Thomas Crane Public Library is submitted herewith.

This report is purposely made brief in order to conserve paper and printing.

Our Library has been affected like all others by the fact that we are a nation at war.

There have been changes in the types of questions asked at the reference desks. There has been a decided emphasis in the demand for books for war workers and for books about the war and the countries involved both by men about the enter the armed services and by the general public.

War conditions have also caused an unusually large number of changes in the personnel of the staff.

The Lecture Room in the new main library building has been designated as an Air Raid Shelter and has been used many times for lectures on First Aid and Civilian Defense.

Because of the necessity for fuel conservation the main Library has been closed on Wednesday and Sunday of each week. Staff schedules were adjusted so that all members worked the same number of hours per week as before.

In order to save oil in accordance with National Defense regulations a change to coal is under way for the main library buildings.

Our Library acted as host for the annual meeting of the Massachusetts Library Association on June 18th. The attendance was unusually large considering travel conditions.

Mayor Burgin has made a gift to the Library of the following pictures:

U. S. S. John Adams leading her division off Gibraltar and
U. S. S. John Adams capturing a privateer in the West Indies.

Both are copies painted by the artist, Frank Vining Smith, of the murals which he painted for the U. S. Cruiser Quincy. These murals were the City's gift to the cruiser. Mayor Burgin also made a loan to the Library of a splendid colored photograph of the Cruiser Quincy.

During the year our Librarian, Mr. Hill, has been Chairman of the Victory Book Campaign for this city. About 25,000 books have been collected and forwarded to army camps, naval bases, army and navy hospitals and to the vessels of the Merchant Marine.

Because of the very small appropriation in the annual budget for books, the Library has been unable to meet the demands of our citizens for new reading matter. It is sincerely hoped that the budget for 1943 will include a sufficient appropriation to meet the requirements of the patrons of our Library.

The trustees take this opportunity to acknowledge again the efficient and loyal work of the librarian and members of the staff, and to thank the Mayor and members of the City Council for their support and co-operation.

Respectfully submitted,

GEORGE E. ADAMS, *Chairman*
GEORGIANA CUSHING LANE, *Secretary*

REPORT OF THE LIBRARIAN

To the Trustees of the Thomas Crane Public Library:

President Roosevelt in a letter to the Council on Books in Wartime on the occasion of its Pearl Harbor anniversary meeting wrote: "In our country's first year of war, we have seen the growing power of books as weapons. Through books we have appraised our enemies and discovered our allies. We have learned something of American valor in battle. We have above all come to understand better the kind of war we must fight and the kind of peace we must establish. A war of ideas can no more be won without books than a naval war without ships." Elmer Davis, Director of the Office of War Information, in a message to American librarians, stressed the point that "In the present war, librarians carry a responsibility such as they have never carried in their history. . . . They must see to it that the people of the country have the facts before them." Thus are libraries challenged to carry the ammunition on their particular front and to pass it on.

Working under a certain handicap, the Thomas Crane Public Library has endeavored to do its duty in its own position in the line. We have purchased the best of the books dealing with what Mr. Davis calls "the facts." We have bought technical books for war workers, books for the civilian defense, for the home front, books helpful to men and women waiting the call to active service, and books and pamphlets dealing with information of all kinds pertinent to the war effort. America is fighting a global war and our soldiers and sailors are finding themselves in strange, far-off corners of the earth. We have tried to find the books which will tell the folks at home about these places where their boys are fighting. Though the emphasis has been on the types of books just described, librarians are also told that they should not forget that there is still need for recreational books, books which will furnish relaxation for tensed nerves and the fatigue of long working hours.

Unfortunately, and this is where the handicap comes in, we have been unable to do as much as we had anticipated, and would have liked to do in bringing "the facts" to the people in every section of our city. Just as the library had enthusiastically gotten under way on its program, the city's budget was passed, and the library found that its book appropriation had been cut to exactly fifty per cent of the appropriation for each of the years 1939, 1940 and 1941. This book budget for 1943 was the lowest since 1919 when the library had only two branches instead of thirteen and Quincy was one half its present size. The drastic cut, which came without warning and without an opportunity to present the library's needs, was accepted with as good grace as possible, but its effect could not be otherwise than to severely curtail the efficiency of the library's services. With the money available, no reference books could be or were purchased after April, the anticipated allowance for technical books was cut one-half, the allotment for children's books reduced two-thirds, and no books of any kind were bought for any of the branches after the first of May.

The inability to provide enough new books was reflected in the percentage of our loss in circulation. While the average losses reported by other public libraries, due to wartime conditions, seems to have been about seven per cent, our loss was nearly

thirteen per cent. The number of books borrowed was 557,329, the lowest since 1927. It may be worth noting that the figure for the total number of borrowers, 23,058, was only two and one-half per cent below that for 1941. Our borrowers apparently kept their cards but came less often and took out fewer books because they could not find the ones they wanted. As another item of the effect of wartime conditions, the rationing of gasoline during the summer was followed by an upward flurry in circulation, which in time was followed by a noticeable drop, particularly at the branches, after the dimout regulations went into effect.

Two features of our library service have been shining exceptions to the rule of losses in 1942. Our hospital library service at the Quincy City Hospital is one. The hospital has been a very busy place this past year and that the library has been used and appreciated is evident in the number of books borrowed by patients and staff. The circulation broke all previous records by more than 4,000 books, the total of 20,767 being above the circulation figures for some of our smaller branches. It was found impossible to give satisfactory service on the five afternoon schedule and a six afternoon schedule, begun late in 1941, has worked more satisfactorily. We are proud of our hospital library department and under Miss Zottoli it is one of our most worth while services.

In the Music Room, the circulation of phonograph records was the other exception to the record of losses. The appreciation of good music seems to be under no decline even in the midst of war, and by making its enjoyment possible by the circulation of phonograph records, we believe we are making a real if small contribution to the general morale. Anyway, 11,206 records were borrowed for home use, which compared with the 8,401 of the year previous is an indication that this department is filling its own special niche in the work of our library. The listening booths have been well patronized and many of those using them have been soldiers and sailors from neighboring bases. Our satisfaction in the fine record of our Music Room is somewhat dampened by the severe loss this department has suffered through the resignation at the end of the year of Miss Margaret Hebert as Music Librarian. It is only the simple truth that Miss Hebert has been almost wholly responsible for the development of this department from its inadequate beginnings in the old building. Many of the music books and all the phonograph records are her selection. The special catalogs represent hard and more or less pioneer work on her part. Through her background and enthusiasm, her friendly interest in all who came to the room and by her record concerts, she was the prime factor in the popularity and achievement of her department. While as librarian I cannot but regret our loss in her resignation, I hope she will find satisfaction and success in her new field of service.

While the reference department does not report so many individual questions as in some previous years, many of the inquiries have had to do directly or indirectly with the war, and many have required considerable detective intelligence on the part of Mrs. Wilford and the other reference librarians.

Under that sometimes abused word "publicity" should be mentioned the continuation of Mrs. Joyce's weekly column "Leaves from the Library" in the Quincy Patriot Ledger, and her books talks, of which she gave twelve during the year to various clubs

and groups. Their popularity is attested by Mrs. Joyce's engagements for the current year. Posters and displays made and arranged by Miss Ponti, Mrs. Brown, Miss Gow and Mrs. Stelfox have not only been attractive, but have interested borrowers in the books displayed. Many of the branch librarians also have been enterprising and assiduous in arranging exhibits and displays in their branches. At the main library Miss Keating's preview table of books about to go into circulation has resulted in reserves for many worth while books not on the best seller lists.

The library is also grateful to the following persons who loaned displays for the exhibit cases in the new building, Mr. Henry W. Porter, old metal and glass lamps; Mr. and Mrs. Maurice Spillane, Toby jugs and Staffordshire figures; Mrs. Martha Bixby, Wedgewood pitchers and lustre ware; Mr. Wesley Fuller, polished beach pebbles; Miss Mary Ellen Bonsall, old buttons; Mrs. Margaret Joyce, old music books; The South Shore Camera Club, photographs; Mr. Roland Howard, drawings and woodcut by the Rev. Jonathan Fisher of Blue Hills, Maine.

Our library suffered from an unusual number of resignations during the past year, marriage or a desire to change to another field of work being the chief reasons. Beside Miss Hebert, we lost Miss Martha Mattson, Miss Bethiah Morrill, Miss Mabel Coriati, Miss Beatrice Keniley, Miss Barbara Hill and Miss Mabel Porter. Miss Porter's resignation was in the nature of retirement after fifteen years in our library, for thirteen of which she served as librarian of the Merrymount Branch. All her associates on our staff wish her many happy years in the enjoyment of a well earned leisure. The library achieved its first service star when Lester White, chauffeur for twelve years, volunteered in September for service in the U. S. Navy. Miss Shirley Bean, Miss Mary O'Brien and Miss Emilie Gassett were the newcomers on the staff during the year, and Mr. Henry Ward was appointed to fill Mr. White's position as chauffeur.

I would not end this report without acknowledging my great indebtedness to the assistant librarian, Miss Callahan, who found the solution to many of the problems of the year, especially those of personnel schedules, and expressing my tribute to all the members of the staff who cooperated finely in carrying on under sometimes discouraging conditions. Also to your Board of Trustees, I am sincerely grateful for your interest, confidence, advice and practical assistance in the year's work.

Respectfully submitted,

GALEN W. HILL,
Librarian

STATISTICAL SUMMARY

Population served, 76605 (1940 census)
Free for lending and reference

Total number of agencies, consisting of:

Massachusetts Fields
and
Wollaston Schools
September, 1909 - June, 1924
Principal at the
Central Junior School
September, 1924-December, 1942

CATHERINE M. MURPHY

Died November 28, 1942
Teacher at the
Quincy School
September, 1930 - November 1942

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Quincy:

In accordance with our practice I am submitting the Annual Report for 1942.

The schools are usually in session approximately 180 days during the school year. The current school year will have fewer sessions because of the many interruptions, such as rationing and the fuel situation. If the pupils attended school all the days and all the hours that the schools are in session, they would be in school approximately 12% of all the hours in the year. Every request and every demand, both local and otherwise, which interrupts the pupils' regular school program and with which school authorities are expected to comply, must be taken out of this 12% of the year.

Demands on school officials have been many and varied during the year.

Regardless of the type of request, the first thing any group of citizens thinks of is why can't the public schools do it? For instance, the salvage drive, the selling of war stamps, the Red Cross work—"Have the schools do it." The officials of the United States Government have felt the same way about rationing.

The school personnel accepted the challenge of rationing and have given their time and energy and have done a splendid job. We dismissed school for a period of four and one half days to do the sugar rationing, five days for fuel oil. We shall soon be obliged to do the rationing for War Ration Book No. 2 and, probably before the school year is over, for Book No. 3. This will take two weeks. My estimate is that it will cost the City of Quincy to do this job of rationing approximately $125,000. But this is not the great cost. The great cost is the interruption of our regular school program; the loss in education to the twelve thousand boys and girls.

Governor Leverett Saltonstall says: "An alert, intelligent, and confident youth is the greatest bulwark for the preservation of our democracy and the safety of our nation. In moulding this future generation in the American way of life, education becomes our most powerful guarantee that right will be master over might."

It is true that education becomes our most powerful guarantee that right will be master over might. But this education must not be diluted. It must be strengthened in every particular. We must have our educational program free from constant interruptions. We must have teachers with zeal who are working for pupil efficiency and school efficiency. Pupils must be taught to do a real day's work.

What Governor Saltonstall is thinking of in his statement is undoubtedly what Dr. Stringfellow Barr, President of St. John's College of Annapolis, has so aptly expressed: "There is a kind of education called by our forefathers liberal education that is good

in war, good in peace, that is good for all men, at all times, and in all places. It is concerned with developing the powers of the individual to read, to write, to speak, to think. It has been given to thousands of human beings in many centuries. It used to be widely given in the United States."

Dr. Barr has struck the key note. This was the purpose for which the public schools were established but we have drifted far afield. Who suffers? The pupils.

The Government has requested the School Committee to approve Defense Refresher Courses. Defense Refresher Courses were organized in sheet metal, pipe fitting, two divisions in machine shop practice—all full-time or eight hour shifts. In addition, there have been Pre-Employment Refresher Courses, four hour courses, in machine shop for men and women. They cover blueprint reading, shop mathematics, drawing and sketching, and discussion of shop problems. In addition to this, a welding school, which is also a part of the defense program, was established October, 1942. The welding school is running three eight-hour shifts. These courses are paid for out of federal funds. Before they are established they are recommended to the School Committee by the Advisory Committee for Defense Training. The function of the School Committee is to approve or disapprove these courses. It is a matter of outside agencies conducting schools within the school system and over which the School Committee has no control except the approval of the bills and the approval of the personnel. They have taken much of the time of the Superintendent, the Assistant Superintendent, and the School Committee.

Forty-seven teachers left the school system during the year 1942.

25 have resigned
2 have retired
17 have gone into service
3 were given a leave of absence

Despite all these diversions, the schools have continued to function. We have gone on with our regular work. We have emphasized and re-emphasized the fundamentals.

In most of the schools attention was given to Education Week which gave the parents an opportunity to feel free to confer with the teachers and principals, particularly in the elementary schools, and with the teachers, principals, and counselors in the junior and high schools. Evening programs were omitted this year. Parents came to the schools in the afternoon. We put out pamphlets and posters describing the purpose of American Education Week and much good resulted. In the Central Junior School, under the leadership of the late David H. Goodspeed, the program included an Armistice Day Assembly, another for a Health Day Assembly, etc.

We have attempted to change toward the war effort. A new Pre-Induction program has been offered to the pupils in the twelfth grade at the Quincy High School and the North Quincy High School.

Because of war requirements and the impending induction of high school boys, changes are being made in the high school program as follows:

1. A full PRE-INDUCTION PROGRAM will be open to all twelfth grade boys beginning January 1943.

   The program includes:

	No. of Periods	No. of Points Jan.-June
Current Readings	4	2
Physics (Selected Units or second semester if course is already being taken)	5	2½
Mathematics Refresher Course	5	2½
Choice of Elements of Aeronautics / Meteorology, Navigation, and Map-Making / Communications	5	2½
Problems of Democracy	5	2½
Physical Education		

   Boys transferring into the Pre-Induction Program will be given credit on a half year basis for all first-semester courses.

2. Elements of Aeronautics, Meteorology, Communications, and the Mathematics Refresher Course may be elected as single courses by boys who do not transfer into the Pre-Induction Program.

   These courses may be carried as extra courses or may replace some elective course that the pupil has been carrying. (In the latter case, credit will be given on a half year basis for the first-semester course.)

3. A new 2 period course in Blueprint Reading will be offered beginning January 1943 (½ credit). Some Freehand or Mechanical Drawing is pre-requisite. The course is open to all twelfth grade pupils—boys and girls.

4. Credit toward the high school diploma may be allowed any high school pupil who submits satisfactory evidence of having completed Red Cross First Aid and Home Nursing courses between January and June 1943.

Before this Pre-Induction program can be of any value, there must be the utmost cooperation and willingness to do on the part of the teacher as well as the pupil. Not only willingness to do but the desire to take hold of it and put it over.

An outstanding talk given to the teachers during the year 1942 was that of Robert King Hall of Harvard University. His lecture was on the German and Japanese threat in Brazil. He analyzed the economic, the political, and the military threat of these racial groups. The teachers have been enthusiastic in their praise of this lecture, stating it was one of the best we have had. Dr. Hall is a leading authority on Latin America and Assistant Director of Harvard University Commission on English Language Studies under the direction of I. A. Richards of Cambridge, England.

The solution of the problems of both war and peace will require college trained men who have had a background of the best possible preparation that the schools can give. I shall continue to advocate a strong College Preparatory curriculum in our schools.

I shall continue to advocate for every pupil that kind of education which will teach him to read, write, and speak the English language correctly, that when he leaves the high school he may be able to read a paragraph, interpret it, and tell what is in it; that he may be able to do common fractions and the simple processes of arithmetic; that he may know something of the elements of geography and history in order that he may be able to take his place as an intelligent citizen.

Respectfully submitted,

JAMES N. MUIR,
Superintendent of Schools.

MR. JAMES N. MUIR, *Superintendent of Schools,*
Quincy, Massachusetts.

My dear Mr. Muir:

I submit the following report on the Day Trade School for the year 1941-1942.

The year 1941-1942 has been a difficult one because of the transition from peace to war conditions. Many of our third-year students have sacrificed their diplomas by leaving school to accept employment at high wages in war industries. Even first and second-year students have left for the same reason. This has had a disquieting influence on the boys who remain, and is reflected in many cases in poor interest in work. The lowering of the draft age to eighteen has taken some boys, while others have enlisted in the various branches of the armed service.

A total of 124 boys have left school for reasons listed below:

Number left to enter armed service	16
Number left to accept employment	108
Number of above employed by Bethlehem Steel Corporation	88

The "turn-over" caused by the war this past year has been unusual. Since September, 1942, 138 boys have been accepted to fill vacancies caused by reasons stated above.

The war has also had its influence upon the faculty. In September, 1942, Mr. H. Porter Perkins, machine class instructor, enlisted in the Navy making necessary the transfer of Mr. Leonard Tordoff, class instructor in the Auto Mechanics Department, to the Machine Department to fill the vacancy caused by the departure of Mr. Perkins. Owing to the unsettled condition of the automobile industry caused by the war, and the lessened number of applicants for that department, it was thought advisable to make the Auto Mechanics Department a two-man department with Mr. Forest L. Mason, former shop instructor, becoming class instructor and Mr. Maurice J. Daly having entire charge of the shop.

During the past year we have accommodated all Quincy applicants who completed the ninth grade or higher, and also have accepted boys from the eighth grade. Eighth graders were formerly not accepted while there were sufficient ninth graders to com-

plete the enrollment. This practice of accepting eighth grade boys will probably be necessary for the duration, although it does not seem wise ordinarily.

In addition, it is necessary to take many tuition students from surrounding towns to complete enrollment.

The following table shows the number of Trade School tuition pupils over a five-year period:

	First Year	Second Year	Third Year	Total
December, 1938	22	29	12	63
December, 1939	7	12	20	39
December, 1940	5	4	7	16
December, 1941	2	1	3	6
December, 1942	29	1	2	32

The following is a financial statement of the Trade School for the last two years:

	1940-41	1941-42
Tuition for non-residents	$2,433.90	$1,252.88
Cash for products made in the school	402.62	320.55
Aid from the Federal Government	4,014.35	5,732.71
Aid from the State of Massachusetts	20,264.18*	23,232.45*
Miscellaneous receipts	136.75	63.06
Total receipts	$27,251.80	$30,601.65
Net cost to City of Quincy	24,823.21	25,301.74

* These figures are from September 1 to August 31, to conform to time of disbursement of State and Federal funds.

Last year in the Spring we started the practice of giving mechanical aptitude tests to boys from the ninth grades of the four junior schools. Mr. Albert H. Cochrane, Assistant Superintendent of Schools, supervised the giving of the Detroit Mechanical Aptitude Test in April to all boys in that grade.

The results were very interesting and helpful. In addition, the Director interviewed every boy who expressed a desire to enter Trade School and tested all with the O'Connor Wiggly Block Mechanical Aptitude Test. These tests have proved valuable supplements to our regular bases of selection.

Respectfully submitted,

FRANK C. WEBSTER,
Director.

MR. JAMES N. MUIR, *Superintendent of Schools,*
Quincy, Massachusetts.

Dear Mr. Muir:

I submit the following report for the Department of Health Education for the year of 1942.

Health Service

Medical Examinations by School Physicians:

1.	Routine Examinations	8,524
2.	Special Examinations	1,698
3.	Examinations of Athletes	636
4.	Miscellaneous Examinations	137
5.	Pre-School Clinic Examinations	441
	Total	11,436

(These figures do not include the examinations of teachers, new entrants and tenure appointments, or those made by family physicians, or specialists upon the recommendations of school doctors.)

School Nursing Service:

I. Number of pupils inspected by nurses for various causes	41,283*
II. Field Visits by Nurses:	
1. to home	1,214
2. to physicians	12
3. to other agencies	68
III. Office Visits (or conferences in school buildings)	
1. Parents	729
2. Teachers:	
a. re health of pupils	3,291
b. re hygiene of classroom	408
c. re home conditions	643
3. Pupils:	
a. re health advice	9,116
b. re first aid	3,599
c. re illness and suspected communicable disease	3,652
d. re follow-up	4,643
IV. Parents Notified re Defects of	
1. eyes	258
2. ears	264
3. nose and throat	451
4. teeth	1,732
5. feet and posture	511
6. others	225
V. Corrections Reported	2,197

* Figure includes all schools in the City except the North Quincy High School.

The following figures were submitted to the Director of Health Education by the City Health Department:

Contagious Diseases Reported:

Scarlet Fever	98 cases
Measles	830 cases

Only Scarlet Fever and Measles are reported since they are the most prevalent and require constant checking to prevent epidemics.

Dental Work

The dental clinic program conducted by the City Health Department in cooperation with the Department of Health Education has been somewhat modified since the last report. Dentists this year examined only the first three grades. Clinic schedules were started on September 30 as follows:

Monday	Miss Rand
Tuesday	Mrs. Ewing
Wednesday	Miss O'Brien
Thursday (P. M.)	Mrs. Ewing
Friday	Miss McEwan

Twelve appointments are scheduled for each morning and four for each afternoon. Emergency work is cared for as it arises. No porcelain fillings are included in this work. While the actual work of the clinic is under the direction of the local Health Department, all appointments and follow-up is arranged for through the Department of Health Education. Arrangements have been made by the Director to have needy Quincy High School pupils fill vacancies at the clinic when elementary school pupils fail to keep their appointments.

Tuberculosis Clinic

(Conducted by the Norfolk County Tuberculosis Clinic in Cooperation with the School Department)

Summary

Population of Grades tested	2,287
Children Tuberculin tested	1,674
Per cent tested	73%
Number reacting to the test	338
Per cent reacting to the test	20%
Children X-rayed	463
Children examined	22
Adult-type Tuberculosis cases found	0
Adult-type Tuberculosis observation group	2
Observation group for annual check-up	56
Number of children examined by special request	181
Hospitalized for observation	1

The 56 cases for observation are divided as follows:

Grade	4— 2	cases
"	5— 3	"
"	6— 2	"
"	8— 5	"
"	9—15	"
"	10— 8	"
"	11— 9	"
"	12—12	"

It is regrettable that due to a shortage of medical personnel, this clinic will not function as in the past. Follow-up cases will be checked but no large groups will be tested.

Orthopedic Clinic

Dr. Arthur A. Thibodeau, the orthopedic physician in charge of the clinic, was called into military service in May, 1942, making it necessary to discontinue the work for the present. We are deeply indebted to the Quincy Lodge of Elks for meeting the expense of this clinic and for much other financial aid they have given our handicapped children.

Clinic Summary—1942

School	No. pupils attending clinic	Conditions			No. recom'd for corrective work in school
		Feet	Spine	Posture	
Quincy High	13	13			13
No. Quincy High	8	5	2	2	8

Squantum	1				1
Thomas B. Pollard	2	2***			2
Willard	5	3	1	1	5
	82	69	10	4	81

* Recommend Massachusetts General Hospital

** X-ray of hips

*** May need surgery

Many of the above cases have attended the clinic as many as six times. Others have been discharged. The remainder should be given more attention. All of these cases, and many others, should be receiving special exercises each week in school. My recommendations are that we again start this work which was discontinued in September, 1940. This would be real health conservation.

Eyes and Ears

Because of the rationing program it was not possible to start audiometer tests as early as usual. Our telebinocular instruments continue to be used more each year with greater effectiveness. Reports clearly indicate their value in the early detection of sight difficulties. This same instrument is used in examing air corps cadets because of its value in measuring the important function of Depth Perception.

Considerable good might be accomplished in the field of vision if the lighting of classrooms was improved.

Analysis of Accidents during 1942

	Reported Accidents	Sent to Hospital	Fractures and Dislocations	Athletic Injuries	Playground	Gymnasium	Classroom	Lavatories	Shop	Cafeterias	Laboratories	Miscellaneous

Physical Fitness Index Chart

High School Boys

SCHOOL		Grade 10		Grade 11		Grade 12		Totals	
		No. Cases	Med. P.F.I.	No. Cases	Med. P.F.I.	No. Cases	Med. P.F.I.	No. Cases	Med. P.F.I. for Group
Quincy High	1941	301	120.	215	119.7	193	119.2	709	119.6
	1942	240	124.	227	126.2	181	123.	648	124.4
No. Quincy High	1941	129	120.	114	112.3	No report		243	116.1
	1942	140	113.3	123	115.9	No report		263	114.6

Remarks—Because of the large number of pupils to be tested at North Quincy High, 12th grade pupils were not tested in June.

High School Girls

Quincy High	1941	336	114.9	301	109.6	257	112.	894	112.2
	1942	304	111.8	254	114.4	260	109.2	818	111.8
No. Quincy High	1941	117	110.	137	120.	No report		254	115.
	1942	138	114.3	155	115.	No report		293	114.6

See Note under Remarks for "Boys."

Junior School Boys—1942 Records

SCHOOL	Grade 7		Grade 8		Grade 9	
	No. Cases	Med. P.F.I.	No. Cases	Med. P.F.I.	No. Cases	Med. P.F.I.
No. Quincy High	181	115.3	172	120.	178	118.8
Central Junior	141	109.9	124	105.9	112	115.9
South Junior		Records not complete				
Quincy Point Junior	97	113.5	94	114.8	101	114.5
Totals and Group Med. P.F.I.	419	112.9	390	113.6	391	116.4

Remarks—Records were not completed for South Junior but from past years it is safe to imply that the Physical Fitness of these boys is equal if not superior to those of other schools.

Junior School Girls—1942 Records

No. Quincy High	174	100.3	143	108.2	168	107.2
Central Junior	114	104.1	145	102.9	121	110.3
South Junior	116	120.5	114	112.1	123	118.2
Quincy Point Junior	90	108.	60	106.2	90	111.1
Totals and Group Med. P.F.I.	494	108.2	462	107.4	502	111.7

Remarks—It is not surprising that South Junior girls show a superior Fitness since records show the largest attendance for after school activities.

"Education for War time has been defined as 'the shortest distance between two points.' 'The two points are the position of the contestant to the position of victor.' Education can help to shorten this distance to victory."*

To this end I propose that we make every effort to give our potential contestants, while they are still in school, every tool that may help them not only to win the war, but the peace that will follow.

* Taken from the reports on the National Institute on Education and the War at Washington, D. C., August 28-31, 1942.

Respectfully submitted,

JAMES J. CARTER,
Director of Health Education.

James N. Muir, B.S.
132 Winthrop Avenue, Wollaston

2. SCHOOL CALENDAR 1933-44

First Term

Schools to open Wednesday, September 8, 1943.

Because of the uncertainty of conditions during the Emergency, further scheduling has been omitted.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Quincy:

The Quincy School Committee for 1942 organized on January 5 as follows:

Mr. Heslip E. Sutherland, Vice-Chairman
Mr. James N. Muir, Secretary
Miss Marion Nilsen, Clerk

Committee on Maintenance:
Mr. John H. Taylor
Mr. A. Wendell Clark
Mrs. Beatrice W. Nichols

Committee on Athletics:
Dr. Edward R. Loftus
Mr. L. Paul Marini

The year's activities were overshadowed and greatly influenced by the war and the resulting problems of manpower, priorities, rationing and civilian defense.

During the course of the year two members of the Committee, Hon. Thomas E. Burgin, Mayor, and Dr. Edward R. Loftus, relinquished their positions to serve with the United States Navy and United States Army respectively and leaves of absence were granted by the Committee to a large number of teachers and other employees who entered the armed forces. A number of others resigned from their positions to accept positions with the government or defense industry.

The readjustments made necessary by these withdrawals, occurring as they did in many cases with very little advance notice, have given rise to problems of much perplexity and have made necessary many program changes, especially in the high and junior schools.

The Committee gave a great deal of time and thought to the matter of providing safety equipment and shelter for the pupils in case of air attack and has put into effect in our schools the several recommendations made by the office of Civilian Defense.

During the year the Committee noted with regret the death of David H. Goodspeed, Principal at the Central Junior School, and Catherine M. Murphy, teacher at the Quincy School.

In recognition of years of teaching in the Quincy Schools the Committee adopted and presented framed resolutions to Miss Lillian M. Waterhouse who completed forty-five years of service and to Miss Cassandana Thayer who completed forty-six years of service at the close of school in June.

In February the Superintendent of Schools advised the Committee that in accordance with the provisions of the law he proposed to retire from his position as Superintendent of Schools on May 1, 1942. Acting under the emergency authority granted by the General Court, the Committee reemployed Mr. Muir as Superintendent of Schools.

Notwithstanding the many difficulties involved, the entire personnel of the Department has cooperated splendidly in carrying on the educational program and in performing the many other duties made necessary by the war.

The foregoing report was prepared by a special committee consisting of Mr. Heslip E. Sutherland and Mrs. Beatrice W. Nichols and was adopted as the report of the School Committee for the year 1942.
